11.2.2	Diagnostics.....	95

# 1 Introduction

---

## Welcome to Pixami's Yearbook Pro software!

This software uses the latest HTML5 web-based application technology to make creating your school yearbook fun and easy, while also offering a broad selection of features and creative tools. And since it's completely online, you can login and work on your yearbook from anywhere!

## 1.1 The Basic Process

The basic process for creating your yearbook will involve defining the book using a planning ladder and then designing individual sections using a robust set of page design tools. You'll be able to combine templates, photos, text, clip art and other elements into custom-designed, finished sections.

Multiple users can collaborate on the yearbook simultaneously, each working on their own sections. Finished sections will be checked into an adviser for review. The adviser can then approve or reject each section, with online comments and interaction.

Once all sections of your yearbook have been created and approved, the yearbook will be ready for print! Sale of the finished book can be accomplished traditionally in the classroom, or online with a Shopping Cart.

## 1.2 What's New for the 2022-23 Season?

If you're a returning user, you may notice some new features that have been added for this season. Here's a list of the most significant changes and additions:

- **Activity Page Preview:** You can now Preview the book from the Activity page. Additionally, any user with Viewer-only privileges can only see the Activity page and view the book.
- **Grids and Rulers:** A new *Ruler* feature is now available in the editor. The ruler can be turned on and off, and the editor now remembers your ruler, grid and snap settings across all editing sessions and all sections.
- **New Borders and Edges dialog.** A new *Borders and Edges* dialog replaces the original borders control and allows you add a shape to an image frame, add a stroke, fill, and drop shadow, and control color and transparency. The previous *Edge Effects* functionality has also been incorporated, with enhancements, making all image frame editing available in one place.
- **New Add Shape tool.** A new *Add Shape* tool allows you to add a shape to the page, and adjust border, corner radius, fill, transparency and drop shadow.
- **Add Borders to a selection of frames.** Borders controls are now available for a selection of image or text frames, allowing you to add borders, shapes, fill colors, and drop shadows to a selection of multiple frames at once.
- **Adjust Font for a selection of image frames.** The *Edit Text* dialog is also now available for a selection of frames, allowing you to adjust font, size and style for a selection of multiple text frames at once.
- **Center Alignment.** An *Align Center* feature has been added to the Alignment menu, so you can now center a selection of image or text frames both vertically and horizontally.

- **Colorization for Candid.** A new *Colorize* feature allows you to adjust the color of candid images using the standard color palette.
- **Background Knockout.** A *background knockout* feature allows users to remove the background from a candid image with one click.
- **Upload Candid photos as PNG files.** You can now upload candid photos as PNG files with a transparent background.
- **Drop Shadow in Portrait Wizard.** The *Drop Shadow* feature in the Portrait Wizard has been expanded to all frame shapes.
- **Fill Color in Portrait Wizard.** You can now fill names with color, and change the font color in the Portrait Wizard.
- **Adjust Name and Metadata in Reflow Portraits.** In the *Reflow Portraits* dialog in the editor, you can now change the name display (First, Last or Last, First) and also organize Metadata. This allows you to make these changes to an existing panel page without the need to use the Portrait Wizard.
- **Page Number Configuration.** *Page Numbers* can now be configured and reset on the Adviser Configure page. This feature can be enabled and disabled in Admin.
- **Copy Saved Layouts.** *Saved Layouts* can now be copied to the Master site, for the purpose of using them on other sites in the same account. This feature is only available for Admins.
- **New and Updated Content.** 15 new professionally designed *High School Themes* have been added, along with new backgrounds, fonts, elements and covers. In addition, there are a variety of new Portrait and other layouts.
- **Cover Themes.** The *Themes* tab is now available in the editor for Covers, with a new set of adjustable cover designs for each theme.
- **Theme Info.** Detailed *Theme information* is now displayed along with a preview of each theme on the Adviser Configure page, and also in the Editor.
- **Limited Theme Sets.** Also on the Adviser Configure page, content can now be limited to only *Elementary, Middle School or High School* themes, allowing Advisers to control the amount and type of content available for users to choose from.
- **Background Search.** You can now *search backgrounds* by keyword.
- **Delete Individual Pages from a Section.** You can now Delete individual pages within a section, and Rearrange Pages, using the Configure feature on the Yearbook Ladder.
- **Delete all Portraits.** You can now delete all portrait folders with one click. This is an Admin feature, to be used for support purposes when its necessary to delete all portraits.
- **Past Due and Completed Notifications:** A bold message will appear in the Yearbook Info section of the Activity Page when the book is Past Due, and when it has been Submitted.

## 1.3 Using this User Guide

This *User Guide* describes the process for creating your yearbook using all the features in the software.

---

**Helpful Tips** and **Important** things to note are emphasized in blue text.

---

Shortcut links to other relevant sections of the User Guide are shown as underlined. Clicking the underlined link will take you to that specific section.

## 1.4 Configuration and Preparation

Before you start, your software should have been configured with a blank book, in the appropriate style and number of pages. If you have any questions about this configuration, please contact your yearbook provider.

Once this has been accomplished, you are ready to begin creating your yearbook. In preparation you should have a plan for the organization of the sections in your yearbook, and the expected number of pages per section. It is also helpful to have your candid photos organized for each section.

Finally, if multiple people will work together to create your book, such as in a Yearbook Class, you should have a list with the names, and e-mail addresses if appropriate, of each person that will be involved, along with an idea of their individual responsibility. This planning will help to assure that the creation process goes smoothly.

## 1.5 Software and System Requirements

Please be sure that you are using a compatible computer/device and a supported browser to create your yearbook. Pixami Yearbook Pro is certified to run reliably on the following systems and browsers:

Operating System	Device	Browser
<b>Apple Macintosh</b>	Laptop computers Desktop computers	Apple Safari Mozilla Firefox Google Chrome
<b>Windows</b>	Laptop computers Desktop computers	Mozilla Firefox Google Chrome Microsoft Edge
<b>Apple iOS</b>	iPad tablet	Safari
<b>Android</b>	Tablet computers	Google Chrome
<b>Chrome OS</b>	Chromebook	Google Chrome

Note that new operating systems, browser versions and devices are constantly being made available, and we're committed to providing compatibility with the most popular platforms. If you have any questions about a specific device or operating environment, please contact your representative.

---

**IMPORTANT!** For the best software performance, you need to have a reliable high-speed Internet connection.

---

## 1.6 The Basic Steps

Below are the basic steps for creating your yearbook using the software. Each of these steps is described in detail in the User Guide. Click the link if you'd like to go directly to the section.

1. [Add users to the software](#)
2. [Add sections to your book, and assign sections to individual users \(if applicable\)](#)
3. [Upload and organize photos for use in your yearbook](#)
4. [Edit the sections of your book](#)
5. [Submit sections for review and approval](#)
6. [Submit the final book for print!](#)

## 1.7 Help Within the Software

In addition to the information in this User Guide, you can also click the *Video Help* link at the top of each page of the software for a video overview of the main features on each page.

Click the *Help* link at the top of each page for online access to this User Guide.

Now, let's get started on your yearbook!

## 2 Using the Software

Your yearbook software has its own web site. You should have been given a link to your yearbook site by your adviser or administrator, along with a username and password. Each time you use the software you will go to this site and login on the home page.

### 2.1 User Login

On the home page of your site, you will see your school's name, with a login section below it. To login, enter your username and password then click the *Login* button. If you do not have login information, please contact your adviser or administrator.

Login to your account to get started.

#### *Forgot Password?*

If you forgot your password, or your password isn't working, click the *Forgot Password* link. You will be redirected to the *Forgot Password* page. Type in the e-mail address that you registered with, and then click *Send*. You will receive an email with instructions for changing your password.

Please contact your Yearbook Adviser if you have any issues logging into the software.

### 2.2 The Navigation Bar

The Navigation Bar provides access to all the features in the software.

Main features are organized on six different pages, which will be available to you based on the permissions granted by your adviser or administrator.

Depending on your permissions you may see buttons for some or all the major functions, each of which is described below. The *Users* section of this document describes the permission levels required to view each of the main features.

### **2.2.1 The Activity Page**

The *Activity* page is the main dashboard page that you see when you log into the software. The Activity page provides information about the book and overall progress.

### **2.2.2 The Yearbook Page**

The Yearbook page allows you to set up and organize your yearbook using a planning ladder, arrange and modify individual sections, assign sections to different users, and check out sections for editing.

### **2.2.3 The Users Page**

The *Users* page allows you to add users to the site and modify their permissions.

### **2.2.4 The Photos Page**

The *Photos* page allows you to add and organize candid and portrait photos and clip art for your yearbook.

### **2.2.5 The Sales Page**

The *Sales* page allows advisers to track sales of yearbooks, yearbook ads and other products sold online.

### **2.2.6 The Configure Page**

The *Configure* page allows advisers to manage the available content, as well as page numbers in the book.

### **2.2.7 Video Help**

Click the *Video Help* link at the top of each page of the software for a video overview of the main features on each page.

---

**TIP:** We recommend that new users of the software watch the Video Help Tutorials at the top of each page. This is a great way to learn the software quickly!

---

### **2.2.8 Help**

Click *Help* to view any current help or warning messages from the software. A message indicator will appear when there is a new help message.

Below any alert messages you will also see a link to this *User Guide*. Clicking the link will open the User Guide in a new browser tab, showing the section related to your current location in the software.

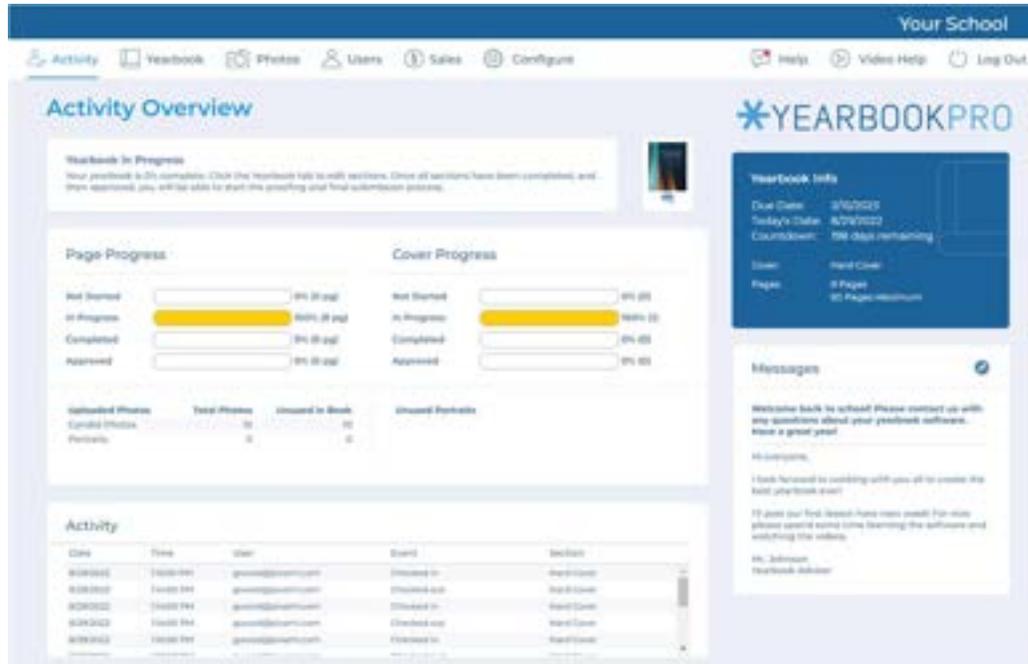

### **2.2.9 Logout**

Click *Logout* to exit and log out of the software.

The following chapters describe each of the main features organized by function.

## 3 The Activity Page

Each time you login to the site, you'll see the *Activity Page*. This page provides an overview of the yearbook and its progress, and is your starting point for accessing the features in the software.

The *Activity Page* of the site provides access to all major features.

All the functionality on the *Activity Page* is organized into sections, or 'boxes.' Here's a description of the main sections on the *Activity Page*:

### 3.1 Status box

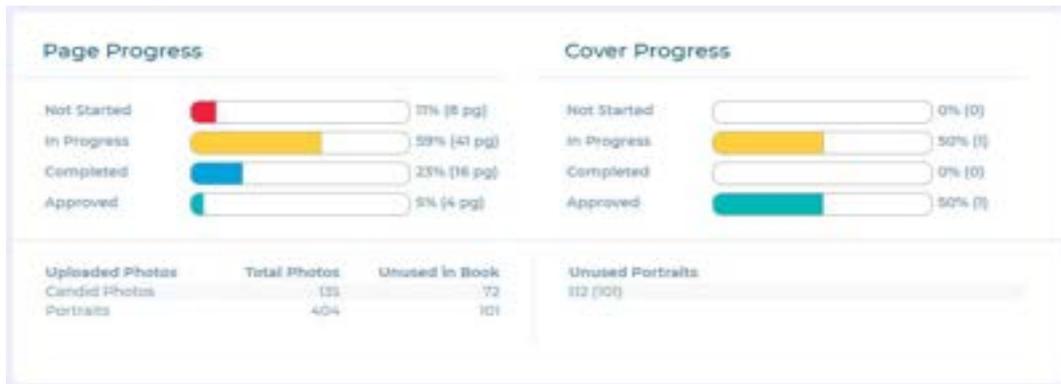

The *Status box* at the top of the page displays information about the current status of the book, and the next steps.

### 3.2 Book Preview

The *Book Preview* to the right of the *Status box* shows a small thumbnail of the cover, and a *Preview icon*. Clicking the icon brings up a current preview of the book.

### 3.3 Progress box

The *Progress Box* provide a real-time visual overview of progress for the Book Pages and for the Cover, with a set of color-coded progress meters.

The *Not Started* progress meter shows the percentage or number of pages that have not yet been started, in red.

The *In Progress* progress meter shows the percentage or number of pages that have been started and are in progress, in yellow.

The *Completed* progress meter shows the percentage or number of pages that have been marked complete by an editor, in blue.

The *Approved* progress meter shows the percentage or number of pages that have been approved by an adviser, in green.

In general as you glance at the progress meters, more red and less green means the book is in an early stage. As you progress though the design process, you will see more green and less red, to indicate that the book is nearing completion.

#### *Candid and Portraits Status*

The *Candid and Portraits Status* section shows the total number of Candid Photos and Portraits that have been uploaded to the software, and the number of each that has not yet been used in the book.

### 3.4 Activity Log

Date	Time	Who	Event	Section
8/15/2018	2:43:00 PM	Fredrick,Nancy	Comment - This looks great, Erica	Grade 8
8/15/2018	2:44:00 PM	Fredrick,Nancy	Checked in	Grade 8
8/15/2018	2:44:00 PM	Fredrick,Nancy	Checked out	Grade 8
8/15/2018	2:42:00 PM	Fredrick,Nancy	Checked in	Community
8/15/2018	2:43:00 PM	Fredrick,Nancy	Checked out	Community

The *Activity Log* box shows a real-time log of all user activity in the book. Items are arranged chronologically with the most recent at the top of the list, and the user and book section are shown for each event. You can scroll through the Activity log to see a complete history of the book.

### 3.5 Info box

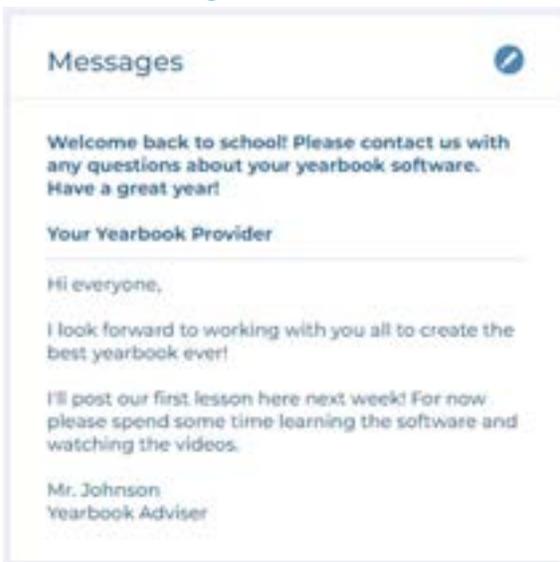

The *Yearbook Info* box displays the Due Date for your yearbook, along with today's date, and a countdown of days remaining. Below the due date information you will also see the book specification, including Cover Type, Number of Pages, and Quantity ordered. These items are configured by your yearbook provider.

If the due date has been passed and the book has not yet been submitted, a large *Past Due* banner will appear in the Info box.

Once the book has been submitted, a large *Book Submitted* banner, along with the submission date and user information, will appear with the info box.

### 3.6 Message box

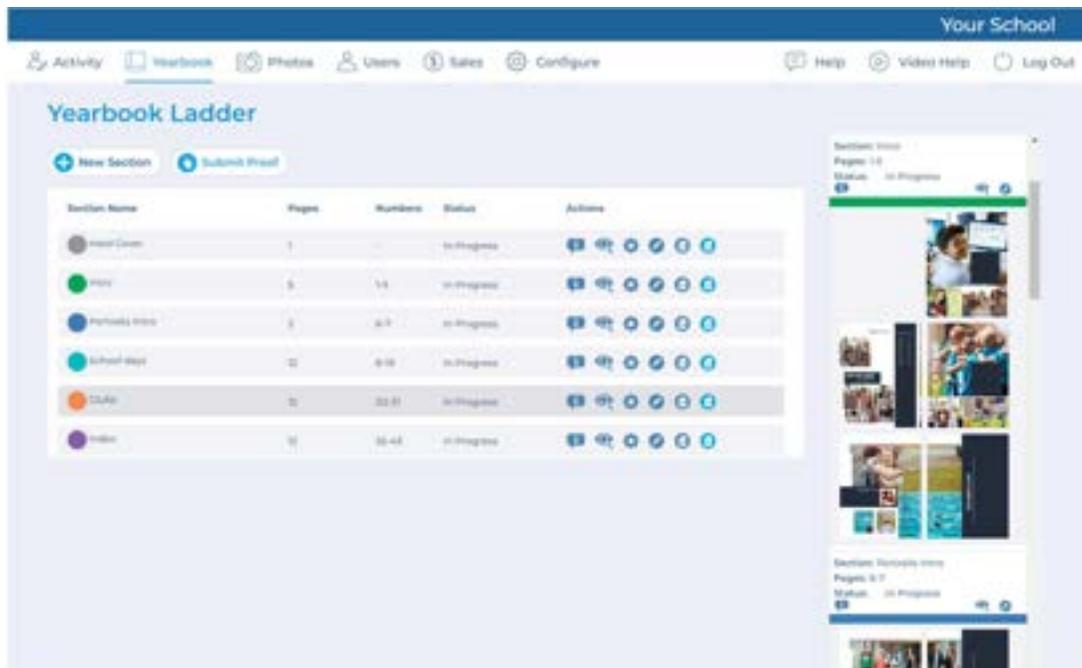

The *Message* box displays any important messages or announcements from your yearbook provider and from your yearbook adviser.

Any user with Adviser privileges can add or update the adviser message by clicking the Edit icon, and then typing in a new message.

## 4 The Yearbook Page

On the *Yearbook* page, you can set up and organize your yearbook, arrange and modify individual sections, assign sections to different users, and check out sections for editing.

The Yearbook Page contains a Ladder for creating and managing your book.

The *Yearbook Planning Ladder*, located on the left side of the Yearbook page, is a valuable tool that graphically illustrates all of the pages of your yearbook, arranged into sections as they will appear in the finished book, with page numbers. The ladder helps you organize the book and determine the overall number of pages needed. In the case of a collaborative effort, the planning ladder can also be used to allow individual users to work on different sections of the book.

The *Section View*, located on the right side of the Yearbook page, displays a current thumbnail version of each section in the book, and provides shortcut access to key functionality.

---

**TIP:** Clicking on a section in the Yearbook Ladder will scroll that section into view in the Section View.

---

The Yearbook page is accessible by users with *Adviser*, *Editor* and *Staff* privileges. If you don't see the Yearbook button on the Navigation Bar, you have not been provided access.

### 4.1 Organizing Your Yearbook Using the Yearbook Ladder

It's helpful to plan and organize your yearbook 'off-line' before you get started with the software. You can then use the yearbook ladder to easily set up your yearbook.

Section Name	Pages	Numbers	Status	Actions
Hard Cover	1	-	In Progress	[Icons]
Index	3	1-3	In Progress	[Icons]
Portraits Intro	2	4-7	In Progress	[Icons]
Grade 9	12	8-19	In Progress	[Icons]
Grade 10	12	20-31	In Progress	[Icons]
School days	12	32-43	In Progress	[Icons]
Clubs	12	44-55	In Progress	[Icons]
Sports	20	56-75	In Progress	[Icons]
Index	12	76-87	In Progress	[Icons]

The Yearbook Ladder allows you to organize your book into color-coded sections.

You can use the Yearbook Ladder to navigate through your book. Clicking on a colored section will highlight it in the *Section Name* column, and thumbnails for the section will scroll into view in the Section View.

### 4.1.1 Adding New Sections to Your Book

A book Section contains one or more pages, typically organized by subject matter. Typical yearbook sections include subjects like Student Life, Clubs, Sports, Academics, and Portraits.

Click the *New Section* button to add a new section to your yearbook. Then enter the *Section Name*, number of *Pages* for the section, choose a *Color Code* for the Yearbook Ladder, and choose a *Theme*.

**New Section**

Section Name:  Pages:  Due Date:

Background Theme:

Check the boxes below to assign or unassign Staff users to this section:

- Robinson, Jeff
- Johnson, Lisa

Create sections using the New Section dialog.

The *Section Name* will be referenced in the Section Name column and should represent the subject of the section. Note that you can also change the section name later at any time.

For *Section Type*, select *Pages* for all main sections of your book.

The *Color Code* will be used to identify the new section in the yearbook ladder. The software will select a new color automatically, or you can click on the color swatch and choose a different color from the color picker.

Enter the number of *Pages* for the section. You can add more pages to the section any time later.

Choose a *Theme* for the section from the dropdown menu. The theme will be automatically applied to pages in your section, giving you a great head start on the design. You can make any changes that you'd like later. If you don't want to start with a theme, and would instead prefer blank pages, choose *None* from the menu.

To add a Due Date for the section. Check the Due Date checkbox, and then enter the due date.

Finally, check the appropriate boxes to assign the section to any Staff users, if applicable.

When you're finished configuring your new section, click *OK*. The section will now appear in the Section Name list and on the yearbook ladder. Page numbers will be added automatically.

Repeat this process for each new section in your yearbook.

---

**TIP:** You can drag-and-drop the sections in the Section Name column to rearrange your yearbook. However, you cannot do this if the change will affect a section that is currently checked out by another user.

---

### 4.1.2 Pages and Page Numbers

The *Pages* column shows the current number of pages in each section.

The *Numbers* column shows the current page number range for each section. The numbers will be updated as any changes are made that affect them, such as adding pages to a section, or moving a section.

### 4.1.3 Understanding Section Status in the Status Column

On the Manage and Design Book page users can *Check Out* and work on individual sections of the book. Once they are finished with their page designs, they can *Mark the Section Complete*, which will submit it to an adviser for review. The adviser can then either *Approve* the section as finished, or *Reject* the section with a comment. Once all sections have been approved, the book is considered complete and can be ordered.

During this process, the status of each section may change regularly. The *Status* column next to a section shows the current status for that section, and whether or not it is available for editing by each user. There are four different section statuses: 1) In Progress, 2) Checked Out, 3) Complete and 4) Reviewed.

A status of *In Progress* means the section has been started but not completed. If you have been given Editor or Staff privileges and are assigned to this section, you will see a *Check out for editing* button. You can click on *Check out for editing* to check out this section and work on its design.

A status of *Checked Out* means the section is currently being edited by someone, and cannot be modified by anyone else. Only one person at a time can check out and work on a section. However, multiple sections can be checked out by different users at the same time.

If you're an Adviser, you can click *Force Check-In* to force the section to be checked in, if you know it is not currently being worked on. The section will be saved and then checked in, where it will then be available for editing.

A status of *Complete* means the section has been submitted and is waiting for an adviser to review it and provide feedback. In order to mark a section as complete, click the *Mark Complete* button. This will send an email to each Adviser letting them know that the section has been checked in.

Once you Check In a section, you will not be able to make any changes to the section until it has been *Rejected* by an Adviser and once again shows a status of In Progress.

A status of *Reviewed* means the section has been reviewed and approved by an adviser, and is ready to be printed when the other sections are complete. You will not be able to make any changes to the section unless it is *Rejected* by an adviser and once again shows a status of In Progress. See the *Adviser Review* section of this User Guide for more information.

#### 4.1.4 Using the Actions Toolbar

The *Actions Toolbar* contains a set of features that allow you to arrange and modify individual sections, assign sections to different users, check out sections for editing, and submit sections for review and approval.

Features are accessed by clicking a toolbar icon, each of which are described below. Not all icons will be available at all times. The set of available icons will change depending on the status of the section, and your specific user privileges.

The Actions column toolbar, with icons for key features.

##### Info/Messaging

Click the *Info/Messaging* icon to view a complete history of the section.

You can also *Add a Comment* that will be available to anyone who can view the section. To add a comment, type your comment into the text field, then click the *Comment* button. A yellow alert icon will appear in the section name column to indicate that a new comment has been posted.

##### Preview

Click the *Preview* icon see an online preview of the selected section. You can turn the pages of the preview, and navigate through the entire yearbook.

##### Settings

Users with Editor or Adviser privileges can perform advanced section management functions using the menu items that can be accessed by clicking the *Settings* icon.

See the following section, [Advanced Section Management](#), for more detail.

### Edit

Click the *Edit* icon to check out a section of the yearbook and work on its design. You will be taken to the *Advanced Design* page.

While you are working on a section its status will be shown to other users as *Checked Out*, and no one else will be able to work on it.

Please see the [Designing Your Yearbook](#) section of this guide for more information about designing and editing your pages.

### Force Check-in

Users with Adviser privileges can click the *Force Check-in* icon to gain access to a section that is currently checked out. This feature is intended to be used when the user forgot to properly check in the section after they were finished working. If a user is currently working on the section when this icon is clicked, they will lose access immediately.

### Mark Complete

Click the *Mark Complete* icon when you are done editing a section and ready to submit it to an adviser for review. When a section has been marked complete, advisers will be notified via email, and can then review the section and *Approve* it, or *Reject* it with their comments.

### PDF Proof

Users with Adviser privileges can click the *PDF Proof* icon to render PDF that can be printed locally for review.

You will see an option that allows you to select the sections that will be included in the PDF. Click *Select All* to select all sections in the book. Once you've selected your sections, click *OK*. The PDF will be generated and will appear in a new window.

The Online PDF is intended for local proofing only, and is not the final production PDF. It is thus lower resolution, and contains a PROOF watermark.

### Approve

Users with Adviser privileges can click the *Approve* icon to approve a section that has been marked complete by the designer. Before clicking *Approve*, be sure to review the section in detail for any errors or required changes.

Click *Approve* once the section is complete and ready for the finished book. The section will be marked as *Reviewed*. While it has a status of *Reviewed*, the section will not be able to be checked out for further editing. Click the *Reject* icon to make the section once again available for editing.

Once all sections have been approved by an adviser, and have a status of *Reviewed*, it's time to submit your yearbook for printing. Please see the [Submitting Your Yearbook for Print](#) section of this guide for more detail.

### Reject

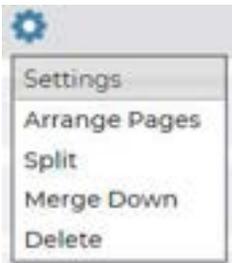

Users with Adviser privileges can click the *Reject* icon to reject a section and give the editor an opportunity to make changes. You will be prompted to add a reason that the section has been rejected. Your comment will appear in the Info/Message dialog, and become part of the history of the section.

Once a section has been rejected, the section status will return to *In Progress*, and the Info/Message icon will update to notify the designer that there is a new comment. Any user can click the Info/Message icon to review the comment.

## 4.1.5 Advanced Section Management using the Settings Menu

Users with Editor or Adviser privileges can perform advanced section management functions using the menu items that can be accessed by clicking the Settings icon.

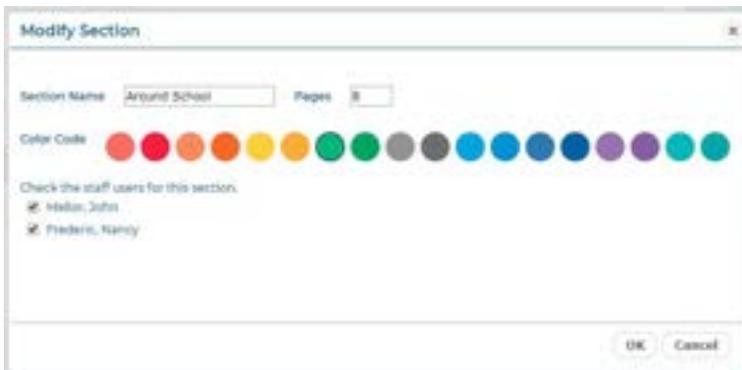

Click the Settings icon next to a section, then scroll down to the appropriate menu item, to select a feature.

Items in the Page Settings icon menu.

### Settings

Select Settings to bring up the *Modify Section* dialog. Here you can update section details, add and delete pages, and assign users to work on a section.

The Modify Section dialog.

Change the *Section Name* to rename the section.

Change the *Pages* to adjust the number of pages in the section. If you increase the page count, new pages will be added at the end of the section. If you decrease the number of pages, pages will be deleted from the end of the section. A warning will appear asking you to confirm. Once pages are deleted they cannot be retrieved.

If you change the page count by an odd number, the updated section will potentially break a spread in subsequent sections. In other words, left-hand pages will become right-hand pages, and right-hand pages will become left-hand pages. If you do this, a warning will appear asking you to confirm. You will not be allowed to break a spread if any of the affected sections have a status of *Checked Out*, *Complete*, or *Reviewed*.

Click a *Color Code* to choose a color for the section.

Check the box next to the name of the any Staff user(s) to give them permission to edit the section. Multiple users can be assigned to the same section.

Click *OK* when finished.

### *Arrange Pages*

Select *Arrange Pages* under the Settings icon to bring up the Arrange Pages dialog. Here you can rearrange and delete pages in a section.

You can only arrange pages for a section with a status of *In Progress*. You cannot arrange pages for a section with a status of *Checked Out*, *Complete*, or *Reviewed*.

**The Arrange Pages dialog.**

Click and drag a page and then drop it in the desired location.

Click the x at the top of a thumbnail to delete that page from the book.

Click *OK* when complete. The section will be updated with the new page order.

### *Split*

Select *Split* under the Settings icon to bring up the Split Section dialog. Here you can split a section into two separate sections.

You can only split a section with a status of *In Progress*. You cannot split a section with a status of *Checked Out*, *Complete*, or *Reviewed*.

The Split Section dialog.

Select the page which you would like to be the first page of the new section.

Click *OK* when complete. The section will be split at the point you selected, and a new section will be created.

#### *Merge Down*

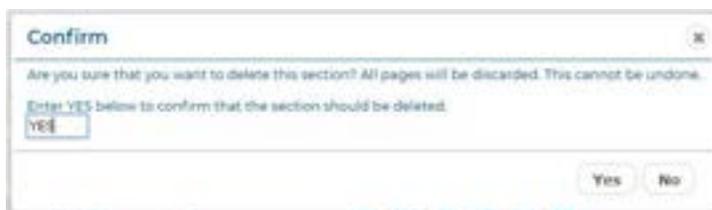

Select *Merge Down* under the gear icon to merge the current section with the section below it. The two sections will be merged together. The current page order will be maintained.

You can only merge two sections that are adjacent to each other in the book, and only if each has a status of *In Progress*. You cannot merge sections if either of them has a status of *Checked Out*, *Complete*, or *Reviewed*.

#### *Delete*

Select *Delete* under the gear icon to delete the current section.

You can only delete a section with a status of *In Progress*. You cannot delete a section with a status of *Checked Out*, *Complete*, or *Reviewed*.

The Confirm Delete dialog.

You must type YES into the Delete Confirmation dialog in order to confirm that you want to delete the section. Then click *OK*.

---

**Important!** Deletion of a section is permanent and cannot be undone.

---

### Copy Cover

When you select Settings for a Cover section, you will see a Copy Cover option under the gear icon. This feature allows you to copy the design from one cover type (such as Hard Cover) to another cover type (such as Perfect Bound).

The Copy Cover option in the Cover Settings dialog.

When you select Copy Cover, the Copy Cover dialog will appear.

The Copy Cover dialog.

Make the appropriate selection from the dialog, then click OK.

**Important!** Each cover type has a different specification as required for printing. Once you've copied a design from one cover type to another, be sure to review each cover to make sure all design elements are properly aligned, and that they appear within the safe area as expected.

## 4.2 Working in the Section View

The *Section View*, located on the right side of the Yearbook page, displays a current thumbnail version page, and provides shortcut access to key functionality.

The Section View on the Yearbook page.

The *Section View*, located on the right side of the Yearbook page, displays a current thumbnail version of each section in the book, and provides shortcut access to key functionality.

Clicking on a section in the Yearbook Ladder will scroll that section into view in the Section View.

Each section in the Section View is color-coded with the ladder color for that section, and displays the Section Name, Status, and Page Range.

Icons on the Section View provide access to key functionality from the Yearbook Ladder.

Click the *Info/Messaging* icon to view a history of the section, or *Add a Comment* that will be available to anyone who can view the section.

Click the *Preview* icon see an online preview of the selected section. You can turn the pages of the preview, and navigate through the entire yearbook.

Click *the Edit* icon to check out a section of the yearbook and work on its design. You will be taken to the *Advanced Design* page.

---

**TIP:** Users with Editor or Adviser privileges can double-click on a section thumbnail to bring up the Modify Sections dialog.

---

## 5 Designing Your Yearbook

---

### 5.1 Preparation

Designing your yearbook pages is fun and easy! It is recommended that you spend some time familiarizing yourself with this chapter and the main features of the software before getting started. It's also ok to play around with some of the features before starting the actual design process. Once you have a basic understanding of how the software works, you will become an expert in no time!

If a *Background Theme* was chosen for the section when it was created, you will see that a set of layouts and backgrounds have already been automatically applied to pages in your section, giving you a great head start on the design. Note that you can change these layouts and backgrounds if you'd like.

We recommend you proceed with the design of your pages in this basic order:

1. **Select a Theme for your pages, or**
2. **Select Layouts and Backgrounds for your pages**
3. **Add photos to the photo frames**
4. **Add text to the text frames**
5. **Add clip art if desired**
6. **Customize!**

The following sections describe all of the available functionality.

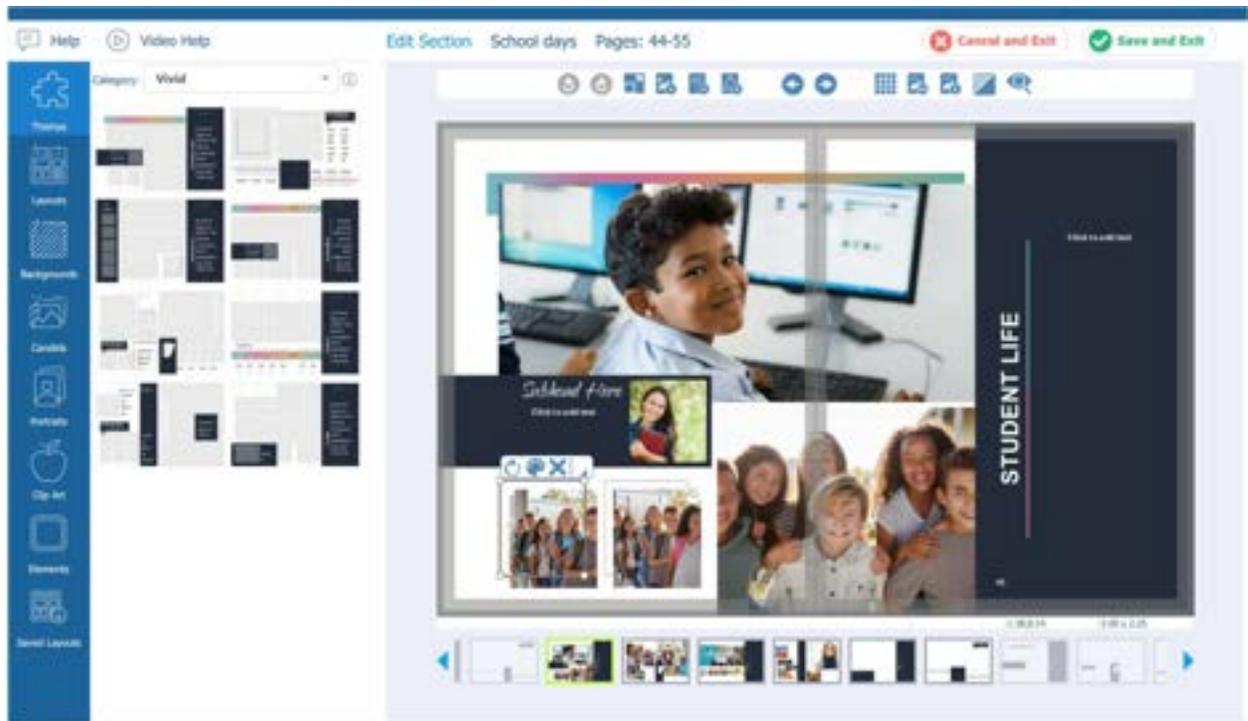

### 5.2 Using the Advanced Design Page

Click the *Edit* icon on the *Actions Toolbar* on the *Activity* page to check out a section of the yearbook and work on its design. You will be taken to the *Advanced Design* page.

Click the **Edit** icon to edit a section..

It's now time to start customizing your yearbook! The *Advanced Design* page provides a preview of the section you are working on and allows you to customize each page individually. You can add layouts and backgrounds, photos, text captions, and clip art, and make other design changes. You can also create your portrait Panel pages, and Index pages, using automated features.

The Advanced Design page contains a wealth of features for designing the pages of your yearbook.

Click the *Help Video* link at the top of the page for a video overview of the main features.

Click *Help* to view any current help or warning messages. A message indicator will appear when there is a new help message.

The *Section Name* is displayed at the top of the page, along with the specific page numbers for that section.

The *Main Toolbar* across the top of the page, above the section preview, provides access to the main features for working with your yearbook.

The *Cancel and Exit* button allows you to leave the Advanced Design page without saving any of your changes.

The *Save and Exit* button allows you to leave the Advanced Design page and save all of your changes.

---

**TIP:** All of your changes are saved automatically as you design your page, so there's no need to worry about having to save them manually! However, you can click *Cancel and Exit* if you want to leave the page without saving anything. If you leave the page without clicking *Cancel and Exit* or *Save and Exit*, all changes will be saved.

---

The *Tab Bar* on the left contains all of the page design components, which can be dragged and dropped onto the pages of the yearbook.

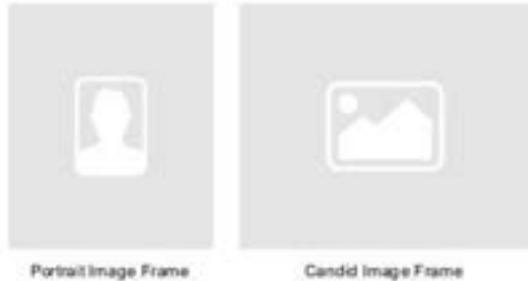

The *Section Preview* in the center of the page is your working area, and contains a real-time preview of the section you are working on.

Below the Section Preview, are *Page Navigation* controls that allow you to scroll between pages of the section.

### 5.2.1 Image Frame Types: Portrait vs. Candid

Image, or Photo, Frames are empty boxes in a page layout into which you drag portrait or candid photos. Portraits and Candid have different types of image frames; portraits can only be dragged into *Portrait frames*, and candid photos can only be dragged into *Candid frames*.

Image frames contain icons that let you know the type of frame. Portrait frames contain a portrait icon, and candid frames contain a landscape icon.

Two types of Image Frames in page layouts.

### 5.2.2 Trim and Safe Areas

A dark gray border around the section preview represents the *trim area*. You should not place any design elements within this area, as they will be trimmed off in production.

A light gray border around the preview represents the *safe area*. You should be careful with any elements placed within this area, as they will be very close to the edge of the page in the finished book.

### 5.2.3 Alerts and Warnings

When an error on the page occurs, an Alert dialog will appear, containing a description of the error and information about how to correct it.

Once you dismiss the dialog, a yellow Alert icon will appear on the page at the location of the error. Alert icons will disappear once the issues have been corrected. Note that an icon may signify that there is more than one issue.

The Alert icon.

Until the errors have been resolved, the message text will be available by clicking the Help icon at the top left of the page. A message indicator on the Help icon will indicate when there is a new error.

Common errors include:

- You have a low resolution photo. Choose a different photo or reduce the size of the photo frame.
- You may have placed a text frame too close to the edge of the page. We recommend you move the text box inside the gray 'safe area' to ensure that it will not be trimmed off in production.
- Your pages may have been rearranged, and affect a frame (photo or clip art) that was on both sides of the spread. This frame now displays a warning icon. Please review and make any changes.

- You may have a Portrait photo that is being overlapped by another photo or design element.

---

**IMPORTANT!** When an error occurs on the page, it's very important that you locate and correct it before submitting your final book. You will be responsible for any uncorrected errors that show up in the final yearbook. If you have any questions about a specific error or message, please contact your yearbook provider.

---

### 5.3 Using the Main Toolbar

The *Main Toolbar* provides access to the main features for working with your yearbook. Move your mouse over any of the tool icons to see a description of the tool.

The Main Toolbar on the Advanced Design page.

Click the *Undo* icon to reverse the previous action. You can undo up to 5 previous actions in a row.

Click the *Redo* icon to reapply an action that has been reversed. You can redo up to 5 actions in a row.

Click the *Enlarge Layout* icon to enlarge or reduce the preview area to the optimum size for your screen. Clicking the button will provide a dropdown menu, with 5 different size options: Small, Medium, Large, Extra Large, and Maximum - Layout Only.

Select the size that best fits the layout area on your monitor. Your selection will be saved and automatically used for future sessions with the software. Once you have chosen a size, we recommend you click the *Refresh* button on your browser, as this is often required for the browser to fully update to the new size.

---

**IMPORTANT!** The *Maximum – Layout Only* size option may take time to load depending on the speed of your Internet connection. Maximum size is intended to be used only for detailed layout and alignment tasks, and does not provide full editing functionality, or show edge effects that have been applied to a photo.

---

Click the *Add Image Frame* icon to add a new image frame to the page. You can then drag and drop a photo from the Photos tab into the new frame.

Click the *Add Text Frame* icon to add a new text frame to the page. You can then click the T icon on the *Text toolbar* to add text to the frame.

Click the *Add Shape* icon to add a shape to the page, and adjust the Border, Fill Color, Drop Shadow and Transparency. There are several available shapes including Square, Circle, Hexagon, Triangle, Octagon, vertical Line and horizontal Line.

Click the *Previous Page* and *Next Page* icons to move forward and backward through the section.

Click the *Grid Settings* icon to turn on and adjust the grid. The grid will help in aligning text, images and other floating design elements. Clicking the button will provide a dropdown menu.

Click the *Show Grid* icon to display a grid overlay on the page. Select 1/8", 1/4" or 1/2" from the Grid menu to choose the spacing between the grid lines. Items will automatically snap to the grid as you move them. Select 1/8" or 1/4" from the Snap menu to determine the grid increments to which the items will align. Note that the snap increment you choose may be different than the grid spacing.

When in the Extra Large layout view, you will have an additional option of 1/16" in the Snap menu. When in the Maximum - Layout Only view, you will have additional options of 1/16" and 1/32" in the Snap menu.

Click *Show Rulers* to toggle Rulers on and off.

Click the *Flip Layout* icon to flip the current layout horizontally. Clicking the icon will provide a dialog, with the option to flip only the Left page, only the Right page, or Both pages together. Select your preference, click OK, then the layout will be flipped.

Click the *Save Layout* icon to save the current layout as a new layout. Clicking the icon will provide a dialog, allowing you to save the Left side, the Right side, or Both sides of your 2-page spread. You will also have the option to include the Background, and organize your new layout into a Category.

All saved layouts will be available on the Saved Layouts tab. You can drag and drop a custom layout to the page, just like a standard layout.

Click the *Adjust Background* icon to clear the page background, or adjust the color and lightness of the background. Clicking the icon will provide a dropdown menu. Select Colorize

to adjust the color of the background. Select **Lightness** to make the background lighter or darker. Select **Clear Background** to remove the background from the page. Select **Clear Color** to reset the background to its original color. Select **Clear Lightness** to reset the background to its original lightness.

Click the *Preview* icon to see an animated on-screen preview of your book.

## 5.4 Adding Layouts and Backgrounds

The pages of your yearbook are primarily made up of *layouts* and *backgrounds*.

*Layouts* are templates that contain *photo frames* and *text frames*. Photo frames contain photos that are dragged directly into the frame. There are different types of image frames for portrait and candid images, denoted by an icon in the frame.

Text frames contain text that is typed into the software and then applied to the frame.

*Backgrounds* are designs in various categories, which appear behind the layouts, and often provide the overall style for the page.

*Layouts* and *Backgrounds* are located on their respective tabs, to the left of the section preview. You can change the layout or background for each page independently, by dragging them to the appropriate page in the spread. Backgrounds can also be added to the entire spread.

---

**TIP:** Refer to the [Content Reference Guide](#) for a complete listing of all of the available **Backgrounds, Layouts, Themes, Clip Art, Elements and Fonts**. This is an excellent tool to aid in your yearbook planning and design!

---

*Layouts* are organized into categories based on type and design style. Click on the *Layouts* tab, and then use the *Category* menu to browse and view the available layouts. To change the layout for a page, select a layout thumbnail, then drag and drop it from left to right onto the page. Note that any existing text and photos will be flowed into the new layout.

Choose from a wide variety of layouts on the **Layouts** tab.

*Backgrounds* are organized into categories and sub-categories by theme. Click on the *Backgrounds* tab, and then use the *Category* and *Sub-category* menus to browse and view the available backgrounds. To change the background for a spread, select a background thumbnail, then drag and drop it from left to right onto the center of the spread. To change the Background for only the left or right page, drag it to that page.

You can *Search* for Backgrounds by entering a keyword, then clicking Search. Your results will appear below the search bar.

  Search

---

**TIP:** When you drag a Background onto the page, you will see a green highlight on the preview to indicate whether the background will be added to the left page, right page, or entire spread.

---

Browse and select backgrounds on the **Backgrounds** tab.

## 5.5 Adding Themes

*Themes* are predesigned page spreads consisting of backgrounds, layouts, fonts, elements and clip art. The software has a selection of built-in themes that allow you to create professionally designed pages quickly, and with little design experience.

To add a theme to your page, click the *Themes* tab and drop your selected theme onto the page. Note that themes are designed as two-page spreads and will replace the entire spread.

Once on the page, themes can be modified by changing the layouts and backgrounds, and moving design elements including image frames, text frames, clip art objects, and elements.

The Themes tab contains a wide variety of pre-designed pages to choose from.

### 5.5.1 EL, MS and HS Theme Content

The software contains a variety of themes in different styles, organized according to Elementary, Middle School and High School.

*High School themes* each contain eight spreads, with section intros for Clubs, Sports, Academics, Student Life and Portraits. HS themes also include *Modules* for special features such as surveys and scoreboards.

*Middle School themes* include a wide variety of styles from playful to sophisticated.

*Elementary School themes* contain simple, fun and colorful designs with an emphasis on photo collage.

You can select which themes to show in the software using the features on the [Configure page](#) in the software.

Click on the Theme Info icon to review detail about the theme and its intended use.

The Theme Info icon.

## 5.6 Working with Candid Photos

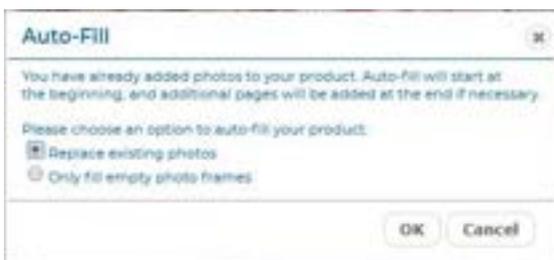

Candid Photos are [uploaded on the Photos page](#) of the software, and are then available on the *Candid*s tab. When you first click on the Candid's tab you will see the photos that are located in the same folder as the name of your section. Use the *Folder* menu to choose a different folder of photos.

The Candids tab.

To add photos to a page, click on a photo, and drag and drop it from left to right into an image frame on the page. To replace an existing photo, simply drag a new photo onto it.

Click *Autofill* to automatically flow photos from the current folder into the image frames in the section. You will have the option to *Replace the existing photos*, or to *Only fill the empty photo frames*. Click the button next to your selection, then click *OK*. Photos will be flowed throughout the section until there are no more photos, or no more frames.

The Auto fill dialog.

You can also click the *Add Image Frame* button on the toolbar to add a new frame to the page. Then click on a photo and drag and drop it onto the new frame.

In addition, you can simply drag a photo from the Photos tab to any empty part of the page, and then release it.

Click and drag on an image frame to move the photo around on the page.

Click and drag the handle on any corner of an image frame to scale the image.

Click and drag the handle on the top or side of any image frame to crop the image.

Refer to the [Editing Photos section](#) for more information about editing candid photos.

## 5.7 Working with Portrait Photos

Portrait Photos are [uploaded on the Photos page](#) of the software, and are then available on the *Portraits* tab. Use the *Folder* menu on the Portraits tab to choose a different folder of portraits.

The Portraits tab.

Click *Portrait Wizard* to get started building your portrait pages.

### 5.7.1 Using the Portrait Wizard

To create your *Panel Pages*, or *Portrait Pages*, it's recommended that you use the *Portrait Wizard*. The *Portrait Wizard* will automate the design of your pages and manage the placement of portraits.

Once your portrait pages have been created, you can choose to make changes and add design elements using the same advanced tools available for your candid photo layouts.

---

**TIP:** Before you start building your portrait pages it's helpful to have a basic idea of how many portraits you will have in the section, and how many portraits you would like on each page. You should then [create a new section for your book](#) with the appropriate number of pages. It's ok to add extra pages just in case, which you can delete later.

---

When you're ready to get started, click *Edit* on the Yearbook page to open the appropriate section into the Advanced Design page. Then click on the *Portrait Wizard* icon, on the Portraits tab.

The Portrait Wizard icon on the Portraits tab.

### Selecting Your Photos

When you click on *Portrait Wizard*, the *Select Portrait Folders* dialog will open. Here you can select the folder, or folders, of portraits that you would like to flow into the section. To select a folder, drag it from the left pane to the right pane. You can flow as many portraits as you'd like into a single section.

The *Select Portrait Folders* dialog.

---

**TIP:** You may choose to add your photos later. In this case you can proceed past this step and use the *Portrait Wizard* to layout your pages without photos. You can then choose *Auto fill* from the *Photos* tab to add your photos when you are ready.

---

When you're finished, click *OK*. The *Portrait Wizard* dialog will open.

### Saved Settings

The *Portrait Wizard* allows you to easily build and modify your panel pages, while viewing your changes in real time. It also allows you to save and manage your portrait page settings, to simplify page creation and management. Each time you launch the *Portrait Wizard*, your most recently used settings will be applied. If you have not yet saved any settings, you will be prompted to create a new settings file.

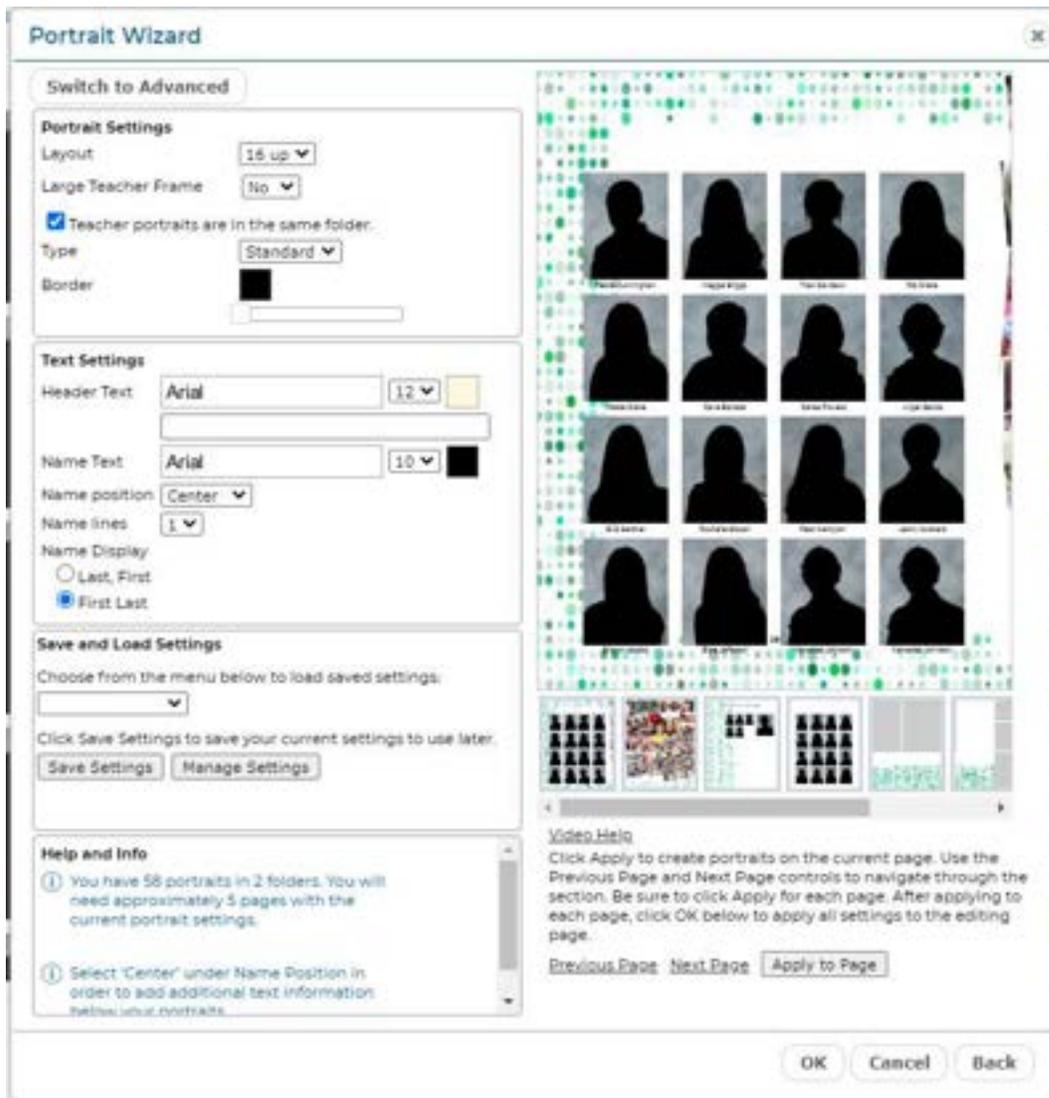

### Basic or Advanced Mode

The *Portrait Wizard* has two different modes of use: *Basic* mode provides the most popular standard layouts and features and is most suitable for novice users, or users that want to quickly create basic portrait pages. Features in *Advanced* mode allow for more detailed customization of your panel pages. Don't worry – you can switch back and forth between these modes based on your needs!

## 5.7.2 Basic Mode Features

The Portrait Wizard opens in *Basic* mode. Click the *Switch to Advanced* button at the top of the page to change to Advanced Mode. You can switch back and forth between modes any time.

This section describes the features available in *Basic* mode; the following section describes the features in *Advanced* mode.

Basic mode in the Portrait Wizard.

### Basic Mode Overview

Adjustments for your portrait pages are organized into *Portrait Settings* and *Text Settings*.

The *Save and Load Settings* feature allows you to save your current Portrait Wizard settings for later use, or for use in another section.

The *Preview* at the right shows a live update of all settings, with *Page Navigation icons* below that show the number of pages in the section you are currently working on.

You can apply your current settings to pages in the Preview by clicking the *Apply to Page* button, which is also located below the Preview. Click the *Previous Page* and *Next Page* buttons to navigate through the current section.

*Help and Info* appears at the lower left of the dialog, to the left of the Preview. The text at the top of the Help and Info section tells you the number of pages you will need, based on the number of portrait photos you have selected and the current portrait settings. This text will update as you make changes that affect the number of pages required.

*Video help* also appears below the Preview. Click to watch the tutorial video.

---

**TIP:** We recommend that users watch the tutorial video before using the Portrait Wizard for the first time. This is a great way to get started!

---

### *Adjusting the Portrait Settings*

The *Portrait Settings* allow you to define and adjust the layout of portraits on the page.

The Layout menu contains the most popular portrait layouts. Select from the menu to specify the number of portraits you would like on each portrait page. Note that the number of pages required may change based on this setting.

If you can't find a setting that works for your desired portrait page design, click the button to *Switch to Advanced* mode, where you will have more options.

Select from the *Type* menu to change the shape of the portrait frames between standard (rectangular) or oval.

Drag the *Borders slider* to add a border to the portraits, and to adjust the thickness of the border. Click on the *color swatch* to change the color of the border.

### *Working with Teacher Portraits*

In Basic mode, you can choose to flow one teacher portrait into a large teacher frame, or to flow multiple teachers into smaller frames ahead of the student portraits.

To add a large frame for your teacher photo, select Yes from the *Large Teacher Frame* menu.

Check the checkbox *if teacher portraits are located in the same folder* as the student portraits. This will cause the teacher portraits to flow automatically into the first row, with the first portrait flowing into the large frame and the rest flowing into smaller frames. You can designate which portrait is a teacher and set the order that each teacher appears on the page [using the controls on the Photos page](#).

If your teacher portraits are in a different folder than your student portraits, you can drag and drop teacher photos into their frames from the Photos tab.

If you need more than one large teacher frame, click the button to *Switch to Advanced* mode, where you will have more options.

### *Adjusting the Text Settings*

The *Text Settings* allow you to define and adjust the attributes of all text on the page.

Use the *Header Text* functionality to add a text header to the top of the page. Type your text into the text box. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text.

Use the *Name Text* functionality to adjust the type characteristics of the student names. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text.

Select from the *Name position* menu to adjust placement of student names. Select *Outside* to place the names to the outside of the page. Select *Center* to place the names below the frames.

Select from the *Name lines* menu to designate either 1 or 2 lines of space for student names.

Select a *Name Display* button to choose whether to organize student names by *Last Name*, *First Name* or *First Name, Last Name*.

### *Alerts*

#### **The yellow Alert icon.**

If you see a yellow *Alert icon* on your preview, this indicates an error on the page. For example, the amount of text in the student name will not fit in the allotted space. Check the Help and Info section at the lower left corner of the Portrait Wizard dialog for additional information. The Alert icon will disappear when there are no issues remaining.

### *Applying and Saving to Your Portrait Pages*

Click *Apply to page* to apply the current Portrait Wizard settings to the current page. Refer to the *Page Navigation icons* at the lower right to confirm the page you are working on.

Click on *Previous Page* and *Next Page* to move through the pages in the section. Then click *Apply to page* again to apply the settings to each subsequent page.

Portraits will flow onto the pages automatically as you apply the settings. You can change the settings for a page at any time. Be sure to click *Apply to page* again to apply any changes.

### *Saving Your Settings*

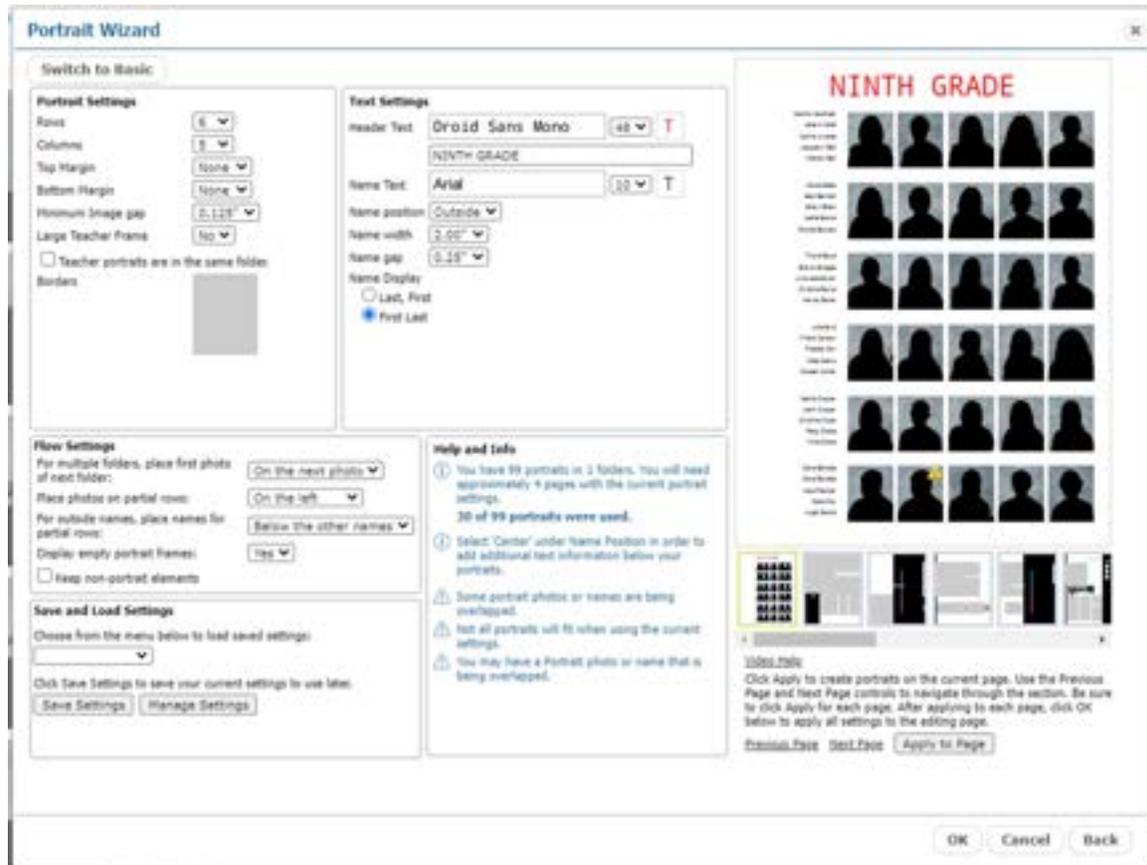

You can save the current Portrait Wizard settings and then apply them to other portrait pages. Click the *Save Settings* button to save the current settings. You will be prompted to enter a name for your settings. Your settings will be saved to the *Save Settings* dropdown menu.

Click *Manage Settings* to *Rename* or *Delete* your saved settings.

To apply your settings to another portrait page, open the Portrait Wizard, then select your saved setting from the menu. The Portrait Wizard settings will update. Click *Apply to page* to apply the settings to the current page.

Click *OK* to close the dialog and save your changes. Click *Cancel* to close the dialog without applying any changes. Click *Back* to go back to the Select Portrait Folders dialog.

### 5.7.3 Advanced Mode Features

The Portrait Wizard showing a panel page in progress.

This section describes the features available in *Advanced* mode; the previous section describes the features in *Basic* mode. Click the *Switch to Basic* button at the top of the page to change to Advanced Mode.

#### *Advanced Mode Overview*

Adjustments for your portrait pages are organized into *Portrait Settings*, *Text Settings*, and *Flow Settings*.

The *Save and Load Settings* feature allows you to save your current Portrait Wizard settings for later use, or for use in another section.

The *Preview* at the right shows a live update of all settings, with *Page Navigation icons* below that show the number of pages in the section you are currently working on.

You can apply your current settings to pages in the *Preview* by clicking the *Apply to Page* button, which is also located below the *Preview*. Click the *Previous Page* and *Next Page* buttons to navigate through the current section.

*Help and Info* appears at the lower center of the dialog, to the left of the *Preview*. The text at the top of the *Help and Info* section tells you the number of pages you will need, based on the number of portrait photos you have selected and the current portrait settings. This text will update as you make changes that affect the number of pages required.

*Video help* also appears below the *Preview*. Click to watch the tutorial video.

---

**TIP:** We recommend that users watch the tutorial video before using the Portrait Wizard for the first time. This is a great way to get started!

---

### *Adjusting the Portrait Settings*

The *Portrait Settings* allow you to define and adjust the layout of portraits on the page.

Select from the *Rows* and *Columns* menus to specify the number of rows and columns you would like on your portrait page. Note that the number of pages required may change based on this setting.

Select a *Top Margin* setting from the menu to add additional space to the top of the page.

Select a *Bottom Margin* setting from the menu to add additional space to the bottom of the page.

Select a *Minimum Image Gap* setting from the menu to adjust the minimum amount of space between your portraits. A smaller minimum image gap will bring the portraits closer together and will result in larger portraits.

Select from the *Type* menu to change the shape of the portrait frames between standard (rectangular) or oval.

Drag the *Borders slider* to add a border to the portraits, and to adjust the thickness of the border. Click on the *color swatch* to change the color of the border.

Click the *Drop Shadow* checkbox to add a drop shadow to the portraits. Select from the *color picker* to choose a color for the drop shadow. Select from the *Transparency* slider to adjust the transparency of the drop shadow.

### *Options for Working with Teacher Portraits*

In Advanced mode, you can choose to flow multiple teachers onto the page into large teacher frames, or into smaller frames ahead of the student portraits.

To add larger frames for your teacher photos, select from the *Large Teacher Frame* menu to add the number of frames you'll need. If you do not choose to add larger teacher frames, teacher portraits can be placed into smaller frames ahead of the student portraits.

---

**TIP:** The number of available Large Teacher Frames depends on the number of portrait columns you have available. The maximum number of Large Teacher Frames is 3, which will become available when you use 6 or more columns.

---

Check the checkbox *if teacher portraits are located in the same folder* as the student portraits. This will cause the teacher portraits to flow automatically into the appropriate teacher frames. You can designate which portrait is a teacher and set the order that each teacher appears on the page [using the controls on the Photos page](#).

If your teacher portraits are in a different folder than your student portraits, you can drag and drop teacher photos into their frames from the Photos tab.

### *Adjusting the Text Settings*

The *Text Settings* allow you to define and adjust the attributes of all text on the page.

Use the *Header Text* functionality to add a text header to the top of the page. Type your text into the text box. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text, and the transparency and fill color for the text frame.

Use the *Name Text* functionality to adjust the type characteristics of the student names. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change

the size of the text. Click on the color swatch to change the color of the text, and the transparency and fill color for the text frames.

Select from the *Name position* menu to adjust placement of student names. Select *Outside* to place the names to the outside of the page. Select *Center to place the names below* the frames.

If you select *Outside*, the names will appear to the left of portraits on a left-hand-page, and to the right of portraits on a right-hand page. You will see menus to adjust the *Name width* and *Name gap*. Change the *Name width* to adjust the width of the text frames. Change the *Text gap* to adjust the amount of space between the text frames and portraits.

Select a *Name Display* button to choose whether to organize student names by *Last Name, First Name* or *First Name, Last Name*.

If you select *Center*, the names will appear below the portraits, and you will have some additional flexibility in adding text.

You will see a *Name lines* menu that will allow you to adjust the number of lines to be used for student names. You can choose to add between 1 - 4 lines of information below each portrait. Once you've selected the appropriate number of lines, drag and drop the information that you would like to appear on the panel page, from the left to the right.

---

**IMPORTANT!** If you see a yellow *Alert icon* on any of the portraits in the preview, this might mean that the amount of text in the student name will not fit in the allotted space. You may see more detail in the *Alert* section at the lower left of the dialog. You can adjust the font size, name position, and other settings until all of the names fit properly, at which time the alerts will disappear.

---

### *Adjusting the Flow Settings*

If you selected more than one folder of photos on the *Select Portrait Folders* dialog, the *Flow Settings* will appear, allowing you to determine how to separate the portraits from each subsequent folder, and how you would like a final, partial row of portraits to appear.

In the menu labelled *For multiple folders, place first photo of next folders*, you can choose between *On the next page*, *On the next photo*, or *On the next line*. This will allow you to control the transition from one folder of class portraits to the next.

In the menu labelled *Place photos on partial rows*, you can choose between *On the left*, *On the right*, *In the center*, *On the inside* or *On the outside*. This will allow you to control the appearance of the final row of portraits, when it contains less portraits than the rows above it.

In the menu labelled *Display empty portrait frames*, you can choose *Yes* or *No*. This will allow you to control whether or not empty portrait frames should be shown on the page. If you chose to place partial rows in the center, the *Display empty portrait frames* menu will automatically be set to *No*.

---

**TIP:** We recommend you do not delete empty portrait frames. It is best to leave them in place, in case you need to add additional portraits to the class later. The *Display empty portrait frames* feature allows you to hide the frames that are unused, but still keep them available in case you end up needing them.

---

Click the *Keep non-portrait elements* checkbox to preserve other elements in your page design when changing your portrait layout. If you do not check this box, the Portrait Wizard will delete existing clip art, elements, and floating image and text frames when updating the page.

## Alerts

### The yellow Alert icon.

If you see a yellow *Alert icon* on your preview, this indicates an error on the page. For example, the amount of text in the student name will not fit in the allotted space. Check the Alerts section at the lower left corner of the Portrait Wizard dialog for additional information. The Alert icon will disappear when there are no issues remaining.

### *Applying and Saving Settings*

Click *Apply to page* to apply the current Portrait Wizard settings to the current page. Refer to the *Page Navigation icons* at the lower right to confirm the page you are working on.

Click on *Previous Page* and *Next Page* to move through the pages in the section. Then click *Apply to page* again to apply the settings to each subsequent page.

Portraits will flow onto the pages automatically as you apply the settings. You can change the settings for a page at any time. Be sure to click *Apply to page* again to apply any changes.

You can save the current Portrait Wizard settings and then apply them to other panel pages. Enter a name for the settings, then click the *Save Settings* button to save the current settings. Your settings will be saved to the *Save Settings* dropdown menu.

To apply your settings to another panel page, open the Portrait Wizard, then select your saved setting from the menu. The Portrait Wizard settings will update. Click *Apply to page* to apply the settings to the current page.

Click *OK* to close the dialog and save your changes. Click *Cancel* to close the dialog without applying any changes. Click *Back* to go back to the Select Portrait Folders dialog.

## **5.7.4 Editing Your Portrait Pages**

You can use all of the design functionality for customizing your portrait pages, including changing backgrounds, adding text and candid photos, and adding clip art.

You can also delete or move individual portrait frames. The order of the portraits will be maintained, and portraits will reflow as necessary in response to any changes.

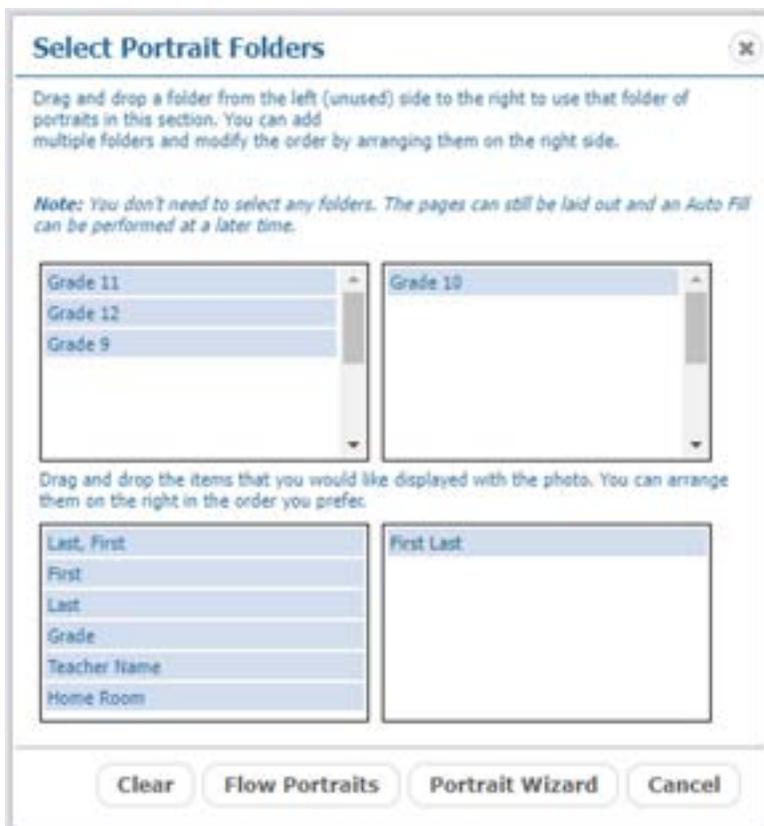

## **5.7.5 Using the Reflow Portraits feature to Flow Your Pages**

As an alternative to the Portrait Wizard you can use the *Reflow Portraits* feature to create and flow your portrait pages. This is recommended for unique designs and special cases where the Portrait Wizard is not suitable.

To create new Portrait Pages, drag a Portrait Layout to the page from the Layouts tab, or from Special Pages on the Themes tab. You can customize the layout using the tools in the editor.

You can drag and drop portrait photos from the Portraits tab into any image frame.

Or, you can click *Reflow Portraits* to automatically flow portrait photos from the current folder into the layout. When you click Reflow Portraits, the dialog will appear.

The Reflow Portraits dialog.

To flow your portraits into the current layout, drag the portrait folder(s) you want to use from the left to the right.

Then, drag the data you want to display with the portraits from the left to the right.

Finally, click *Flow Portraits*. Your portraits will flow into the layout.

---

**TIP!** The Reflow Portraits feature can also be used to flow portraits, or reflow portraits, into layouts that were created using the Portrait Wizard.

---

## 5.8 Adding Clip Art to Your Pages

The *Clip Art* tab contains a wide selection of clip art, organized into numerous subjects, which can be used to enhance your page designs. Click on the *Clip Art* tab, and then use the *Category* menu to browse and view the available clip art.

The Clip Art tab.

### 5.8.1 Searching for Clip Art

You can *Search* for Clip Art by entering a keyword, then clicking Search. Your results will appear below the search bar.

The Clip Art search bar.

To add clip art to the page, select a thumbnail, and drag and drop it from right to left onto the page. You can then click and drag it to position it on the page.

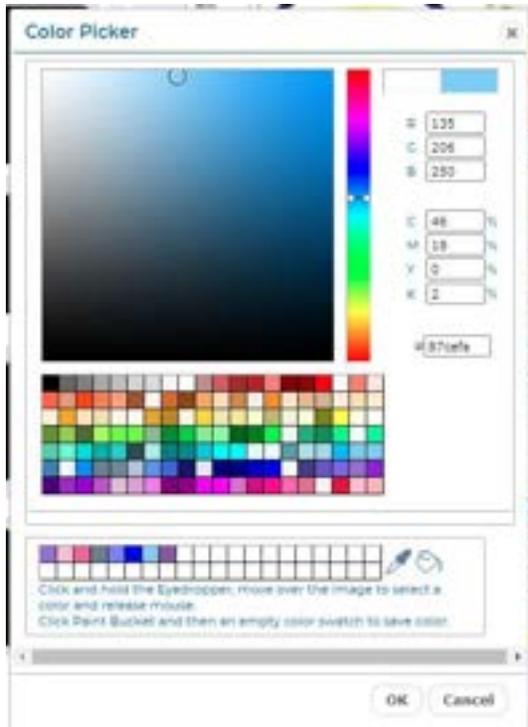

Selected Clip art and the Editing Toolbar.

Click and drag the handle on any corner of the clip art frame to scale to a larger or smaller size.

When you click to select a clip art object, you will see the *Editing Toolbar*.

Click the *Rotate* icon, then select an option from the dropdown menu, to flip or rotate the clip art.

Click the *Colorize* icon to launch the color picker and change the color of your clip art. You can select a color from the available swatches, type in your own RGB or CMYK value, or use the eyedropper to select a color from your page. Click OK to apply the currently selected color to your clip art.

Use the **Color Picker** to change the color of your clip art.

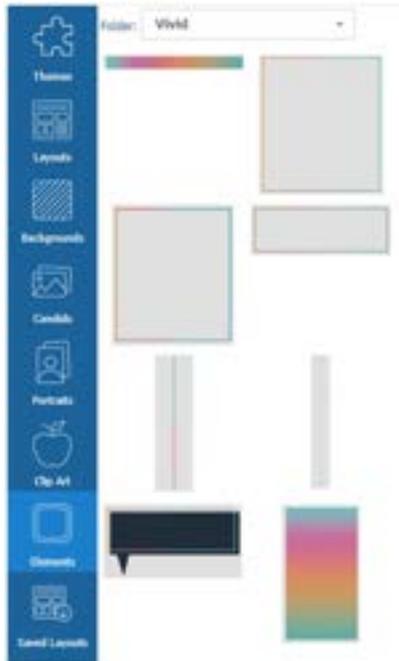

Click the *Delete* icon to delete the clip art.

Click the *More* arrow, then select *Duplicate* from the menu to duplicate the clip art.

Click the *More* arrow, then select from the *Layer* menu to move the clip art forward or backward with relation to other items on the page.

## 5.9 Adding Elements to Your Pages

The *Elements* tab contains a wide selection of design elements that can be used to enhance your pages. Click on the *Elements* tab, and then use the *Category* menu to browse and view the available elements.

The Elements tab.

To add an element to the page, select a thumbnail, and drag and drop it from right to left onto the page. You can then click and drag it to position it on the page.

Click and drag the handle on any corner of the element frame to scale to a larger or smaller size.

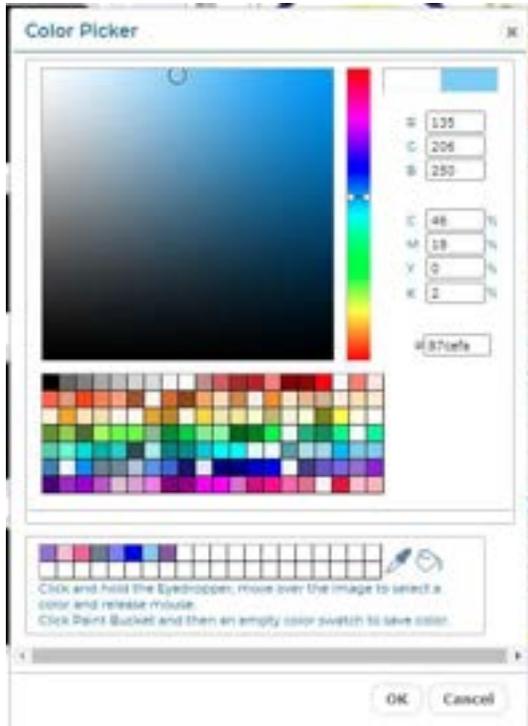

Selected Element and the Element Toolbar.

When you click to select an element, you will see the *Editing Toolbar*.

Click the *Rotate* icon, then select an option from the dropdown menu, to flip or rotate the element.

Click the *Colorize* icon to launch the color picker and change the color of your element. You can select a color from the available swatches, type in your own RGB or CMYK value, or use the eyedropper to select a color from your page. Click OK to apply the currently selected color to your element.

Use the Color Picker to change the color of your element.

Click the *Delete* icon to delete the element.

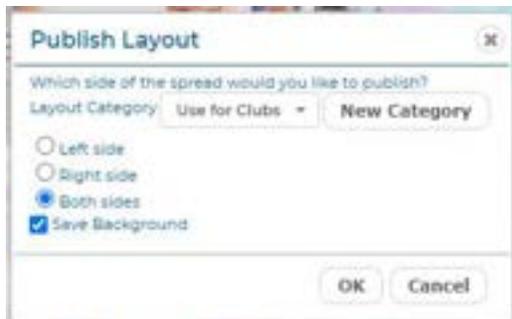

Click the *More* arrow, then select *Duplicate* from the menu to duplicate the element.

Click the *More* arrow, then select from the *Layer* menu to move the element forward or backward with relation to other items on the page.

## 5.10 Working with Saved Layouts

The *Saved Layouts* tab allows you to create your own custom page designs and use them throughout your book.

To save a layout, click the *Save Layout* button. A dialog will appear, providing you with some options for saving your layout.

The Publish Layout dialog.

Choose a *Layout Category* from the menu for your saved layout. Or, click *New Category* to create a new category for your layout.

Select *Left Side* to save only the left side of your 2-page spread.

Select *Right Side* to save only the right side of your 2-page spread.

Select *Both Sides* to save both sides of your 2-page spread.

Click *Save Background* to include the background with your saved layout.

Any *Clip Art* and *Elements* will be automatically saved as part of the layout.

Once you are ready, click *OK*. Your newly saved layout will now be available on the *Saved Layouts* tab. You can drag and drop it to any other page in your books.

The *Saved Layouts* tab.

## 5.11 Editing Photos

To edit a photo, click on it to select it, and you will see the *Photo Editing Toolbar* appear at the top of the photo. Move your mouse over any of the tools to see a description of the tool.

The *Photo Editing Toolbar*.

### 5.11.1 Cropping Using the Crop Tool

Click on the *Crop tool* to crop the photo. The crop dialog will appear. The yellow crop triangle represents the area of the photo that will be cropped. Click in the center of the crop

triangle and drag to reposition it. Click and drag a corner to scale it. Click *Apply* to close the dialog and apply your changes to the photo. Click anywhere outside of the dialog to close it without making any changes.

Cropping a photo in the Crop dialog.

### 5.11.2 Adding Borders, Shapes, Drop Shadows and Edge Effects

Click on the *Borders and Edges* tool to apply a border, shape, drop shadow, and edge effects to the photo. The Borders and Edges dialog will appear.

Applying a border, shape and colored drop shadow in the Borders and Effects dialog.

Choose from the *Shape* menu to change the shape of the image frame.

Adjust the *Border* slider to add a border and change its thickness. Click on the *color swatch* to change the color of the border.

Adjust the *Drop Shadow* slider to add a drop shadow and control its thickness. Click on the *color swatch* to change the color of the drop shadow. Select from the *Transparency* slider to adjust the transparency of the drop shadow.

Click on the *Edges* tab to choose from different edge effects to apply to your photo.

#### Adding Edge Effects to a photo.

Click *Remove Border* to remove borders and effects from your photo.

Click *Done* to close the dialog and apply your changes to the current photo. Check the box to *Apply your settings to all images on the current spread*.

Click *Cancel* to close the dialog without making any changes.

### 5.11.3 Rotating and Flipping Using the Rotate Tool

Click on the *Rotate tool* to rotate or flip the photo. A dropdown menu will appear with several options for flipping your photos or rotating to various angles. Select an option from the menu. Your selection will be automatically applied to the photo.

Choose *Custom* to type in a value for the rotation, then click *Apply* to rotate your photo.

### 5.11.4 Colorizing a Photo

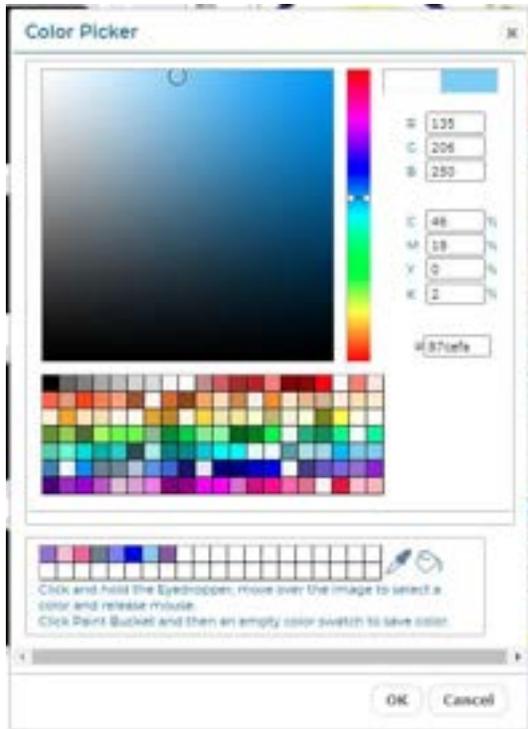

Click the *Colorize* icon to launch the color picker and change the color of your photo. You can select a color from the available swatches, type in your own RGB or CMYK value, or use the eyedropper to select a color from your page. Click *OK* to apply the currently selected color to your photo.

---

**TIP!** When colorizing a photo, the properties of the photo will have an impact on which colors work best. Sometimes different colors work better than others, and sometimes darker or lighter works better, so experiment to find the result you want.

---

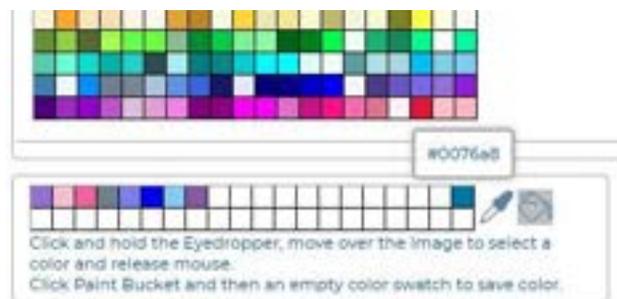

Use the Color Picker to change the color of your photo.

### 5.11.5 Adding Custom Colors to the Color Picker

You can save *custom colors* from elements on the page and add them to the bottom rows of the color picker to use throughout your book.

To add a custom color, click on the *Eyedropper* tool at the bottom of the color picker, then while still holding down your mouse button, move the cursor around the page to a color you would like to use. Let go of the cursor when you have found a color you like.

Next click the *Paint Bucket* tool to load the color, then click the swatch you'd like to fill with your new custom color. The color will now be available in the color picker to use throughout your book.

Adding a custom color to the color picker.

### 5.11.6 Applying Effects to a Photo

Choose from the *Effects* menu to apply a variety of effects filters to your photo.

Select *Sharpen* to sharpen the edges of your photo.

Select from the *Image Effects* menu to apply global effects such as *AutoFix*, *Grayscale*, and *Sepia*. To remove the filter, select *None*.

Select from the *Image Filters* menu to apply special effects filters such as *Pixellate*, *Posterize*, *Emboss* and *Cartoon*. To remove the filter, select *None* in the menu.

Select from the *Image Fill* menu to adjust the placement of the photo in the frame. The *Scale to Fit* option will fit the entire photo in the frame, even if the frame has a different aspect ratio. The *Scale to Fill* option will fill the frame with the photo, from the center out. If the frame has a different aspect ratio than the photo, the photo may be cropped equally on all sides to fit the frame. The *Scale to Fill (Top)* option will fill the frame with the photo, from the top down. If the frame has a different aspect ratio than the photo, the photo may be cropped on the bottom and sides to fit the frame.

### 5.11.7 Deleting a Photo or Frame Using the Delete Tool

Click on the *Delete tool*, then choose *Delete Frame* from the dropdown menu to delete the entire image frame. Choose *Clear Image* to only delete the photo and leave the image frame in place.

### 5.11.8 Advanced Photo Editing

Click on the *arrow* icon at the right of the *Photo Editing Toolbar* to access the *Advanced Editing* options. A dropdown menu will appear.

Select *Duplicate* from the menu to duplicate the photo.

Select *Lock* from the menu to lock the photo so that it cannot be moved. Select *Unlock* to unlock the photo.

The *Fill Page* options allow you to fill the page with a photo, or use a photo as the background, in one simple step. Select *Fill Page* to fill the current page with the photo. Select *Fill Page/Send to Back* to fill the page with the current photo, then send it to the back, making it the background. Select *Fill Spread* to fill the whole spread with the photo. Select *Fill Spread/Send to Back* to fill the whole spread with the current photo, then send it to the back, making it the background.

The *Layer* options allow you to move the photo forward and backward in relation to the other elements on the page. Select from *Bring Forward*, *Bring to Front*, *Send Backward*, and *Send to Back*.

Click *Transparency* to adjust the transparency of the photo. Drag the slider to the desired transparency, ranging from 0% (opaque) to 100% (completely transparent). The photo will update automatically when the slider is adjusted.

## 5.12 Adding and Editing Text

To add or edit text, click on a text frame to select it, and you will see the *Text Editing Toolbar* appear at the top of the photo. Move your mouse over any of the tools to see a description of the tool.

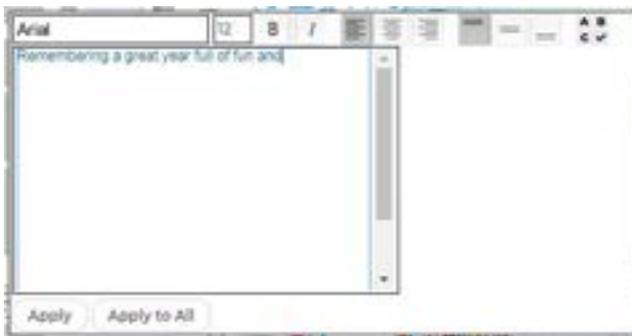

The Text Editing Toolbar.

### 5.12.1 Adding and Editing Text Using the Text Edit Tool

Click on the *Text Edit tool* to add text to the frame or edit existing text. The text editing dialog will appear. Type your text into the text box. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click the *Bold* or *Italic* button to change the style of the text. Click the *Left*, *Center* or *Right Alignment* button to change the horizontal alignment of the text. Click the *Top*, *Center* or *Bottom Alignment* button to change the vertical alignment of the text. Click *Apply* to close the dialog and apply your changes to the photo. Click *Apply All* to close the dialog and apply the font changes to all text frames on the page. This will not change the font size in the other frames. Click anywhere outside of the dialog to close it without making any changes.

Adding text in the Text Editing dialog.

---

**TIP:** Not all of the available fonts contain styles for **Bold** and *Italic*. Therefore, these settings may not work for some of the fonts.

---

### 5.12.2 Applying Color and Borders Using the Borders Tool

Click on the *Borders tool* to apply color to the text, and to apply a border and fill to the text frame. The borders dialog will appear. Click on the *Text Color* swatch to change the color of the text. Click on the *Border* color swatch to change the border color for the text frame. Drag the *Border* slider to adjust the thickness of the border. Click the *Fill* color swatch to change the fill color for the text frame. Drag the slider to the desired transparency for the fill. Click the *Drop Shadow* checkbox to add a drop shadow to the photo. Select from the color picker to choose a color for the drop shadow. Select from the Transparency slider to adjust the transparency of the drop shadow.

Click *Apply* to close the dialog and apply your changes to the current text frame. Click *Apply All* to close the dialog and apply your changes to all text frames in the spread. Click anywhere outside of the dialog to close it without making any changes.

The Text Borders dialog.

### 5.12.3 Rotating Text Using the Rotate Tool

Click on the *Rotate tool* to rotate the text frame. A dropdown menu will appear with several options for rotating to various angles. Select an option from the menu. Your selection will be automatically applied to the text frame.

### 5.12.4 Deleting Text or a Text Frame Using the Delete Tool

Click on the *Delete tool*, then choose *Delete Frame* from the dropdown menu to delete the entire text frame. Choose *Clear Text* to only delete the photo and leave the text frame in place.

### 5.12.5 Advanced Text Editing

Click on the *arrow icon* at the right of the *Text Editing Toolbar* to access the *Advanced Editing* options. A dropdown menu will appear.

Select *Duplicate* from the menu to duplicate the text frame.

Select *Expand* from the menu to slightly expand the width of the text frame. This feature is helpful for fine tuning text placement.

The *Layer* options allow you to move the text frame forward and backward in relation to the other elements on the page. Select from *Bring Forward*, *Bring to Front*, *Send Backward*, and *Send to Back*.

Select *Lock* from the menu to lock the text frame so that it cannot be moved. Select *Unlock* to unlock the frame.

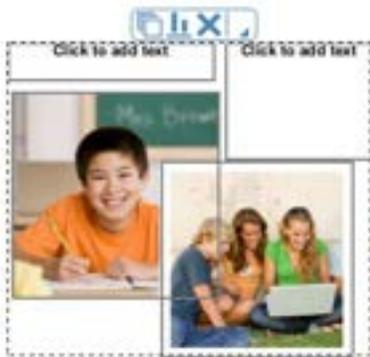

## 5.13 Selecting and Editing Multiple Frames Together

You can select multiple frames at once, including image frames, text frames, clip art, and elements, and then apply changes to the entire selection. To select multiple frames, hold the Control (CTRL) key on your Windows keyboard, or the CMD (Apple) key on your Mac keyboard, while you click on each frame.

The Multi-select Toolbar.

When you have more than one frame selected, you will see a dotted line around the selection, and the *Multi-select Toolbar* will appear above the selection. The available tools in the toolbar will vary depending on the number and types of frames you have selected. Move your mouse over any of the tools to see a description of the tool.

Selecting multiple frames at once.

### 5.13.1 Adjusting Text for Multiple Text Frames

If you have multiple text boxes selected, you will see the *Edit Text* icon in the toolbar. Click the icon to change the font, size, alignment and linespacing for all of the selected text boxes at once.

### 5.13.2 Adjusting Color and Borders for Selected Text Frames

If you have multiple text boxes selected, you will see the *Text Color and Borders* icon in the toolbar. Click the icon to change the text color, border, fill color, and drop shadow for all of the selected text boxes at once.

### 5.13.3 Adjusting Borders for Selected Image Frames

If you have multiple image frames selected, you will see the *Borders* icon in the toolbar. Click the icon to change the shape, border, and drop shadow for all of the selected image frames at once.

#### 5.13.4 Duplicating Multiple Frames Using the Duplicate Tool

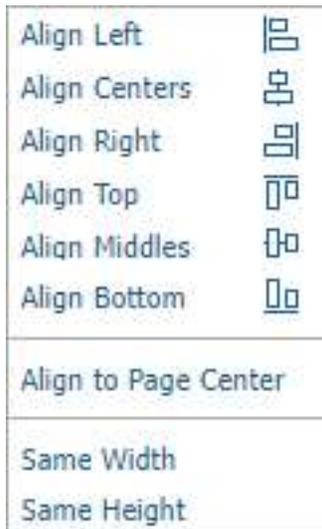

Click the *Duplicate tool* to duplicate the selection of frames.

#### 5.13.5 Aligning Multiple Frames Using the Align Tool

Click the *Align tool* to align the selection of frames. A dropdown menu will appear.

Choose from the available settings to align the selected frames.

*Align Left* will align the left edges of the selected frames.

*Align Centers* will vertically align the centers of the selected frames.

*Align Right* will align the right edges of the selected frames.

*Align Top* will align the top edges of the selected frames.

*Align Middles* will horizontally align the centers of the selected frames.

*Align Bottom* will align the bottom edges of the selected frames.

*Align to Page Center* will center the selected frames on the page.

*Same Width* will adjust all the selected frames to be the same width.

*Same Height* will adjust all the selected frames to be the same height.

### 5.13.6 Deleting Multiple Frames Using the Delete Tool

Click the *Delete tool* to delete all the selected frames.

### 5.13.7 Locking Multiple Frames Together Using the Lock Tool

Select the *down arrow* on the toolbar and choose *Lock* from the menu to lock the selected items together. Choose *Unlock* from the menu to unlock the selected items.

## 5.14 Adding Page Numbers

Page numbers can be added to your yearbook in the Administration pages of the software, and also on the Configure page if allowed by your Administrator.

Refer to the [Configure](#) section of this guide for more information.

The following settings are available for adjusting your page numbers:

*Placement:* Top or bottom; inside, centered, or outside

*Page number margin*, which is the distance from the edge of the page (in inches): 0.25, 0.3125, 0.375, 0.5, 0.625, 0.75

*Font:* Arial, Comic Sans, Times New Roman, Trebuchet, or Verdana

Font size (points): 9, 10, 11, 12

Page number style: #, -#-, or #/#

*Outline:* Yes or No

To add page numbers and to gain access to page number functionality, please contact your Adviser or Administrator.

---

**IMPORTANT!** Page numbers can be added or modified at any time. However, page numbers can't be added or modified if any sections have a status of *Checked Out*. Be sure that all sections are checked in before asking your Adviser or Administrator to add or adjust page numbers.

---

Page numbers will appear in a text frame on each page in Advanced Design. Selecting a page number on a specific page will provide a toolbar that allows you to change the color, or delete the page number.

## 5.15 Adding Grad and Biz Ads

If you have the Storefront software enabled, parents and businesses can design Grad and Business Ads online, and then pay for them using a Shopping Cart.

All ads that get ordered will automatically get converted to JPG files, and then transmitted to a new folder on the Manage Photos page called Advertising. You can check the Advertising folder regularly for new Ads. Advisers can also run sales reports for ads on the Adviser Review page. See the Adviser Review section of this user guide for more information.

### 5.15.1 Creating an Advertising Section

To add your ads to the book, first create a *New Section* on the Manage and Design Book page, just as you would create any other section of the book. Name the new section *Advertising*, and specify the number of pages you think you will need. You can add more

pages, or delete some, later if needed. Choose *None* for the background theme, so you will have blank pages.

### 5.15.2 Editing Your Advertising Section

Now that you have created an Advertising section, click *Check out for editing* to open the Advertising section into the Advanced Design page.

On the Advanced Design Page, select the Photos tab. Then click Change Source. Choose the Advertising folder, then click OK.

Your ads will load onto the Photos tab. Hold your mouse over the thumbnail for each ad and you will see whether it is a 1/8-page, 1/4-page, 1/2-page or Full page ad. You will need to know this in order to plan your ad page layouts.

Next, click the Layouts tab. Select *Grad and Biz Ads* from the *Category* menu. You will see a selection of ad page layouts, with various combinations of 1/8-page, 1/4-page, and 1/2-page frames, and a Full page layout. Select a layout according to your current ad selection, and drag it onto a page.

Next click the Photos tab. Then drag each ad into the appropriate sized frame on the layout.

Repeat this process to create all of your ad pages.

## 5.16 Building an Index

The *Index* feature allows you to create a set of index pages in your book, that lists all students in alphabetical order along with the pages number(s) of the book in which they appear.

Student names and their corresponding page numbers are automatically added to the index for all Portrait photos.

For Candid photos you will manually add names for any photos that you would like referenced in the index. Please see the section [Previewing Photos, and Adding Captions and Index Entries](#) for instructions on how to add names for your candid photos.

### 5.16.1 Creating an Index Section

Before you can create your index you will need an *Index Section* in your book. You can create an Index Section on the Yearbook page, just as you would create any other section of the book. Please refer to [Adding New Sections to Your Book](#) for instructions on creating a section. Name the new section *Index*, and specify the number of pages you will need.

Note that the formatting of the Index pages, and the number of students, will affect the number of pages needed for the Index Section. You may want to add a few more pages than you think you will need. You can delete any unneeded pages later.

### 5.16.2 Editing Your Index Section with the Index Wizard

Now that you have setup your Index Section, you can begin editing it. Go to the *Yearbook* page and click *the Edit* icon to edit your Index section. The section will open into Advanced Design.

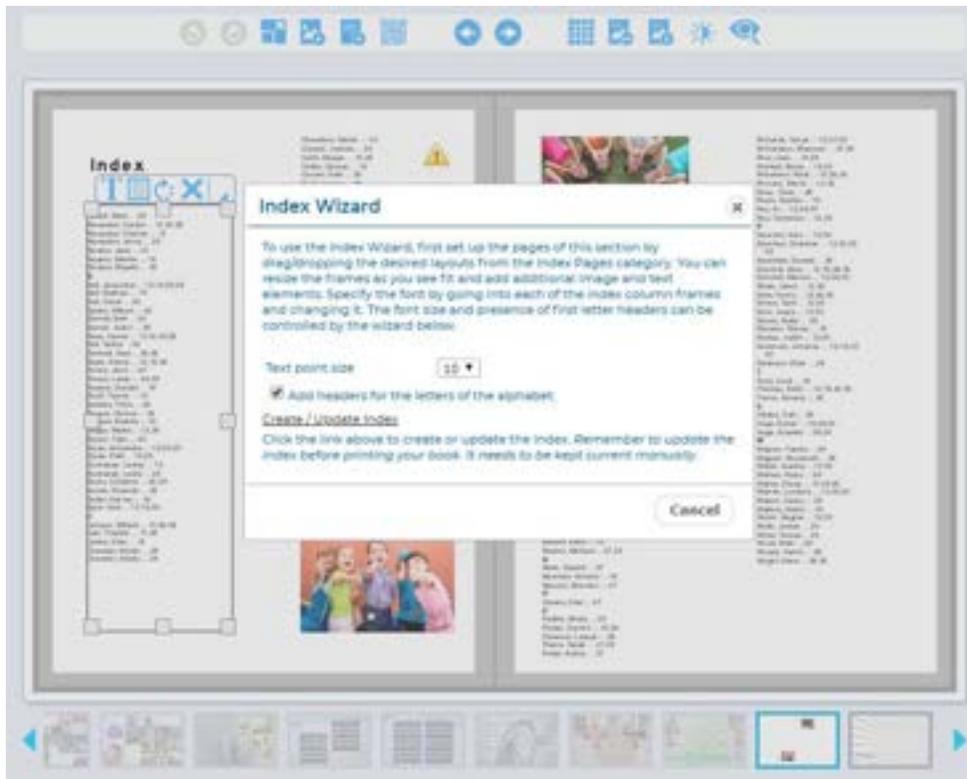

Next, click on the Layouts tab, and then select *Index Pages* from the *Category* menu. Here you will see a variety of layouts to choose from for your Index pages. Some of the layouts have photo frames that will allow you to add photos to the index pages. Choose the layouts you want to use, and drag them onto your pages. Note that you can change the layouts at any time in the future.

Next, click on the *Index Wizard* button.

The Index Wizard button on the Layouts tab.

The Index Wizard dialog will appear.

Create your index using the Index Wizard.

Click on *Create / Update Index*, and all of your student name information will automatically be flowed into the Index.

Click on the *Add headers for letters of the alphabet* checkbox to add a capital letter at the beginning of each letter of the alphabet in the Index. This will provide some additional organization and is helpful for a large index.

When the index has been successfully created you will get a message to confirm that the Index was completed and that all index information fit in the layouts provided.

If there was not enough room in your layouts to fit the entire index, you will get a message that asks you to either add additional frames or change the point size. In this case you can use the Text point size drop down menu to change the text to a smaller size, and then click *Create / Update Index*. You can also drag a different layout with more room for index entries, such as a 3-column layout with no images, onto the page. Or, you can add additional pages to your Index section.

Once you have your Index section layout the way you want it, click the *Create/Update Index* at the bottom of the wizard.

---

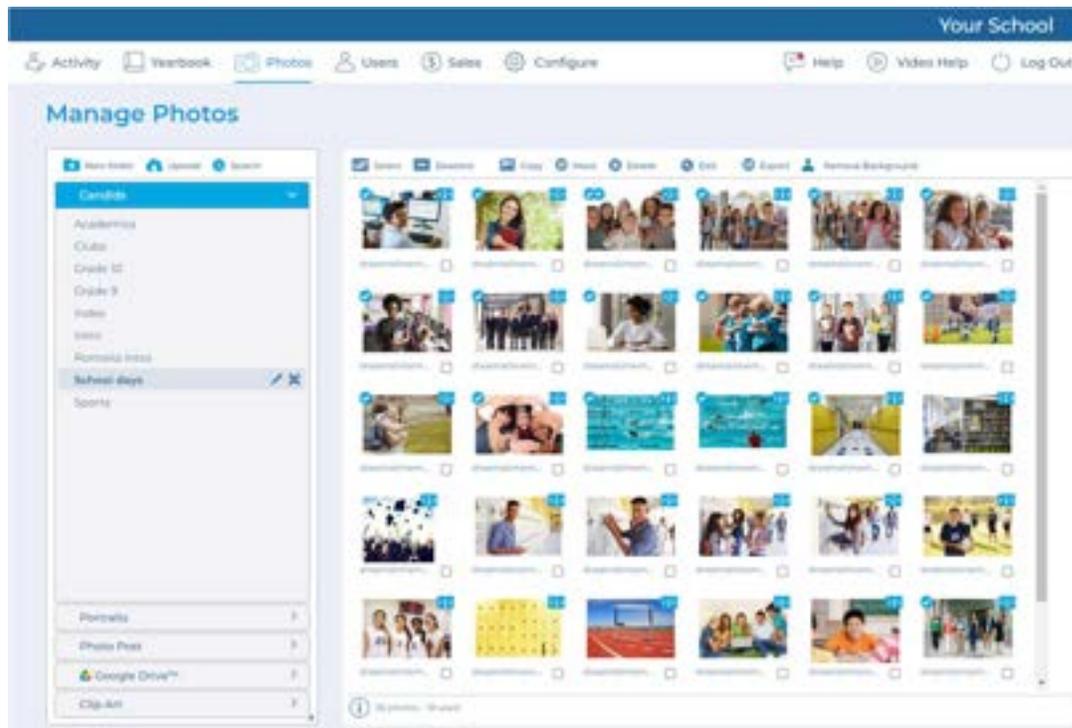

**Important!** Always remember to update your index in the Index Wizard as a final step before submitting your book for proofing and approval. This will make sure that the index is up to date with all of the changes in the book.

---

## 6 The Photos Page

On the Photos page you can add and organize photos and clip art for your yearbook.

This page is accessible by users with *Adviser*, *Editor*, *Staff*, or *Photographer* privileges. If you don't see this page, you have not been provided access.

The Manage Photos page contains functionality for organizing and editing your photos and clip art.

### 6.1 Organization of the Manage Photos Page

Main features on the *Photos* page are organized on the left in collapsible tabs. Images are organized into folders on each tab.

Clicking a tab will make it active. Clicking a folder on a tab will display thumbnails of the images in that folder in a contact sheet, on the right half of the page.

Features for managing the images are located in a toolbar along the top of the contact sheet.

The *Candid*, *Portraits* and *Clip Art* tabs contain the three main types of images that can be managed on this page. If configured, you may also see tabs for *Photo Post* and *Google Drive*. These tabs provide additional sources for obtaining photos for your yearbook.

A checkmark icon on a photo thumbnail indicates that the photo has already been used in the book. A plus icon indicates that the photo has been used more than once in the book.

Note that the available features may be different based on the selected tab and your user permissions.

### 6.2 Working with Candid Photos on the Candids Tab

The *Candid* tab contains all non-portrait photos to be used in your yearbook. These can include candid photos, sports and club photos, etc.

The **Candid** tab on the **Photos** page.

Candid photos are organized into folders. For each section that you created on the *Yearbook* page, a corresponding folder was automatically added on the *Candid* tab. You can add photos for each specific section to these folders, and you can also add your own folders.

### 6.2.1 Adding Photos for Use in Your Yearbook

In order to make photos available for use in your yearbook you will need to upload them into the software. Candid photos should be RGB JPG or PNG files.

To upload photos from your PC, select the folder you want to upload your photos into, then click the *Upload* button at the top of the tab.

Click **Upload** to upload photos from your PC.

Next click *Add Files*, and locate the photos that you want to upload. Select the specific photos you want to upload, then click *Open* to start the upload process.

Progress indicators will provide status during the upload process, and you will be notified when it is complete.

Uploading photos to use in your yearbook.

### 6.2.2 Managing Your Candid Photos

#### Adding a New Folder

Click the *New Folder* button to add a new folder for organizing your photos. Enter a name for the folder when prompted, then click *OK*.

The **New Folder** button.

### *Renaming or Deleting a Folder*

Click the *Rename folder* icon next to a folder to rename the folder. Enter a new name for the folder when prompted, then click **OK**.

Click the *Delete folder* icon next to a folder to delete the folder.

The **Rename and Delete** icons.

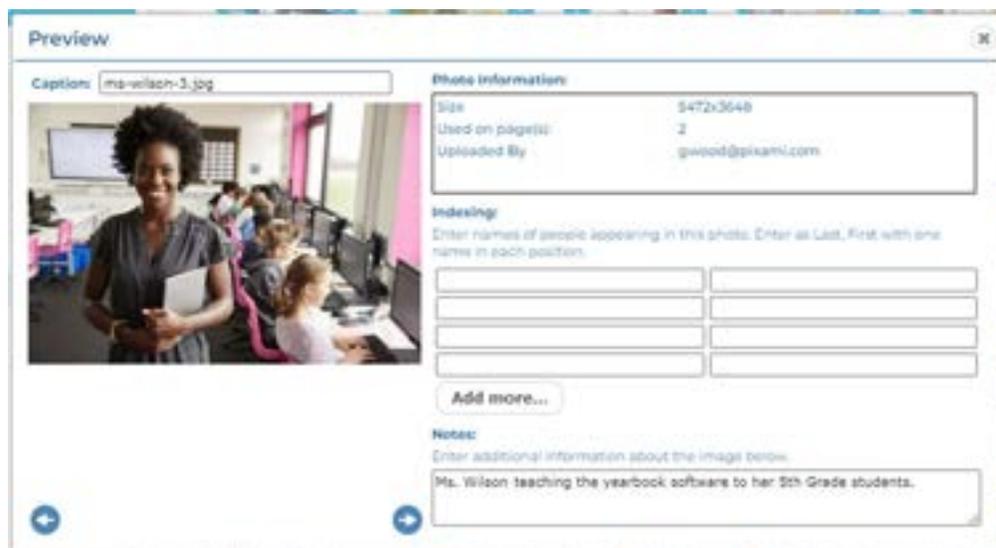

### *Previewing Photos, and Adding Captions and Index Entries*

To *Preview* a photo in a larger window, change the *Name* or *Caption*, and add *Index* information, click the *Preview/Info* icon, at the top right of any photo thumbnail.

The **Preview/Info** icon shown on a **Candid** thumbnail.

The *Preview/Info* dialog will appear.

The **Preview/Info** dialog for a **Candid** photo.

Click the *Left and Right arrows* to scroll through all of the Photos in the current folder.

To change the name of a photo, type the new name into the *Caption* field.

To tag the photos with names for the *Index* and for *Search* purposes, start to type the names of people appearing in the photo into the *Indexing* fields. A list of student names will appear. Click to select the appropriate name to add it to the field.

Type a separate name into each field for each person in the photo. Click *Add more...* if you need to add more names. All names entered for a photo will be referenced in the Index, with the appropriate page number for the photo.

Enter any additional information about the photo in the *Notes* field. This will be helpful for developing captions for the photos in your book.

### 6.2.3 Searching for Candid Photos

Click the Search button to search for photos containing a specific person. Type the first few letters of the first or last name of the person you are searching for, then select the name from the list that appears, and click Search.

Candid photos are searched based on the Index information in your photos. For more information about adding information to your photos, see the section *Previewing Photos, and Adding Captions and Index Entries*.

The Search button.

### 6.2.4 Photo Organization Using the Toolbar

You can select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Use the features on the *toolbar* to organize the photos in a folder.

The main Photo toolbar on the Candids tab.

Click *Select* and then choose from the menu to *Select All*, *Select Used* or *Select Unused* photos in the current folder.

Click *Select All* to select all photos in the currently active folder.

Click *Select Used* to select only the photos in the current folder that have been used in the book. These photos display a checkmark icon.

Click *Select Unused* to select only the photos in the current folder that have not been used in the book.

Click *Deselect* to deselect all photos in the current folder.

Click *Copy* to copy the currently selected photos to another folder. The *Copy selected photos* dialog will appear. Select a destination folder for the photos, then click *OK*.

Click *Move* to move the currently selected photos to another folder. The *Move selected photos* dialog will appear. Select a destination folder for the photos, then click *OK*.

Click *Delete* to *delete* the currently selected photos.

Click *Edit* to edit a photo. You can only have one photo selected to use the editing feature.

Click *Export* to export the selected photos to your local disk for archival purposes. Photos will be added to a zip file. Click where instructed to download the file.

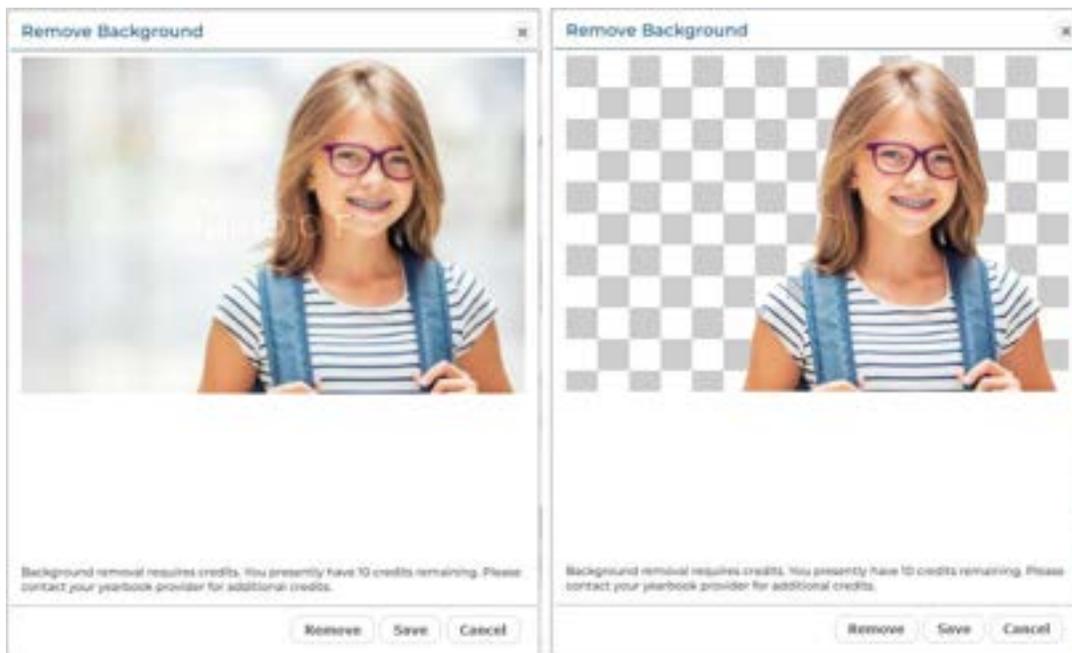

Click *Remove Background* to remove the background from the selected photo.

### 6.2.5 Removing the Background from a Photo

Click *Remove Background* to remove the background from the selected photo. The Remove Background dialog will open, with a preview of your photo.

Click *Remove Background* to remove the background from the photo.

Click *Save* to save a copy of the photo with the background removed. Click *Cancel* to close the dialog without saving.

The Remove Background dialog, before and after removing the background from a photo.

---

**TIP! The Remove Background feature works best with backgrounds that are soft, subtle and plain. If the background is too busy, or if it contains a pattern, the background may not be able to be removed and you will see an error message. In this case it's recommended that you try a different photo.**

---

#### Adding Background Removal Credits

The *Background Removal* feature use a third party utility to remove the background from candid. The third party charges a transaction fee each time the feature is used to remove the background from a photo. The transaction fee is paid using credits that are loaded into the software.

You should have Background Removal credits in your account to get started, and a message in the dialog will display how many credits you have remaining. Each time you remove the background from a photo you will use one credit. Contact your yearbook provider to obtain additional credits.

## 6.2.6 Editing Your Photos

You can make corrections to a photo, and add fun and creative filters and effects. To edit a photo, select it, and then click *Edit*. The photo will be opened into the *Photo Editor*.

Use features on the *Edit Photo* dialog to edit your photos and add creative effects.

On this page you can easily apply corrections or creative effects to your photos. There are three main categories of functionality:

The *Essential Tools* provide the most basic corrections for less than perfect photos; the *Effects* filters allow you to apply more creative and fun special effects; and the *Edges* are special edge treatments that you can apply to your photos.

Choose the appropriate editing category by clicking on the *Essential Tools*, *Effects* or *Edges* tab, then select an effect to apply it to your photo. For some of the controls you can adjust the amount of the effect by using the sliders that appear on the page.

Click *Zoom In* and *Zoom Out* if you want to see more or less detail in the preview.

Click *Rotate*, *Flip* and *Mirror* to change the orientation of the photo.

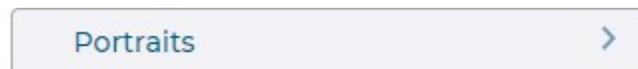

Click *Undo* and *Redo*, once or multiple times, to undo or redo any of your changes.

Click *Revert* to revert back to the original photo with no changes.

Click *Save* to save a duplicate of the photo with your changes, or click *Cancel* to leave the editor without saving any changes. You will be taken back to the *Manage Photos* page.

## 6.3 Working with Portraits on the Portraits Tab

The *Portraits* tab contains your school portraits. These may already be uploaded onto the site by your portrait studio or yearbook provider, or provided to you for uploading to the site. If you are unsure, please check with your yearbook administrator.

The *Portraits* tab on the *Photos* page.

### 6.3.1 Adding Portraits for Use in Your Yearbook

You will need your Portraits available on a CD that conforms to the PSPA standard. To get started, place the PSPA CD in your disc drive, or copy the contents of the CD to your hard drive.

Click the *Portraits* tab on the Photos page. Then, click the *Portrait Import* button at the top of the Portraits tab.

The **Portrait Import** button at the top of the **Portraits** Tab.

The Portrait Import dialog will launch.

The **Portrait Import** dialog, Step 1.

#### *Step 1: Select Index File*

The first step to uploading portraits is to upload your *PSPA Index file*, which contains an index of all of the files on the CD. The file may be named *index.txt* or something similar.

Click *Browse*, locate the folder that contains the index file, and then click *OK*.

Or, you can drag and drop the file directly from your hard disk onto the target in the uploader.

Click *Next*.

#### *Step 2: Define Index Layout*

The contents of the index file will be displayed in the Portrait Import dialog.

**Portrait Import**

**Step 2: Define Index Layout**

Specify which column in the INDEX.TXT file maps to the following fields. If a field does not exist in the INDEX.TXT file, then leave the mapping blank.

1	2	3	4	5	6
VOL1	0001	00000001.jpg	10	Gibson	Rochelle
VOL1	0001	00000001.jpg	10	McLaughlin	Hack
VOL1	0001	00000001.jpg	10	Wash	Juanda

Specify which of the columns correspond to the desired item:

Image Folder: Column 2  
Image File Name: Column 3  
Grade: Column 4  
Last Name: Column 5  
First Name: Column 6  
Home Room:   
Period:   
Teacher Name:   
Track:

Determine how you would like your images organized into folders on the server.

Some possibilities are to organize by Grade, Home Room, Teacher or some combination of 2 of them, like Teacher / Grade.

Folder Key #1: Grade  
Folder Key #2:

Previous Next

The Portrait Import dialog, Step 2, organizing contents of the index file.

The contents of the index file will be organized into columns. Use the dropdown menus to specify the columns that correspond to the contents of the index.

Using the example above as a reference, you can see that Column 2 lists the name of the Image Folder, Column 3 lists the Image File Name, Column 4 lists the Grade, Column 5 lists the Last Name, and Column 6 lists the First Name.

Use the *Folder Key* menus to specify how you would like your portraits organized in the software. For example, if you choose *Grade*, your portraits will be placed in folders according to the grade of the students. If you choose *Teacher*, the portraits will be placed in folders according to teacher.

You can choose more than one Folder Key based on the information available in the index file. For example, if you choose *Teacher* for Folder Key #1, and then *Grade* for Folder Key #2, portraits will be organized in folders labelled *Grade/Teacher*.

Once you have made your selection, click *Next*.

### Step 3: Add Portrait Files

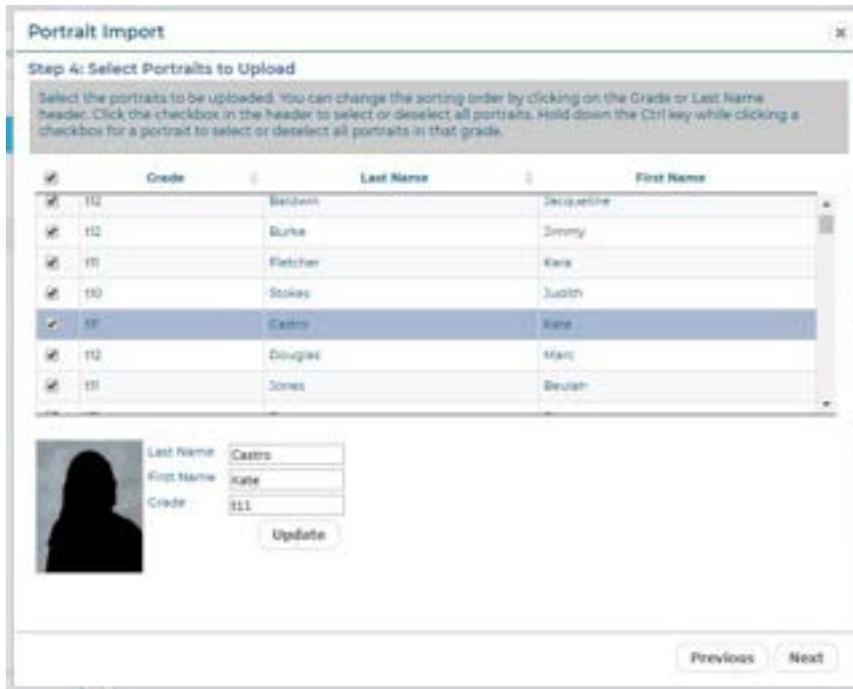

If the software could not find them, you may be prompted to locate and add your portrait files. Click *Browse*, locate the portrait files on the CD or your hard disk, select them, and then click *OK*.

Or, you can drag and drop the files directly onto the target in the uploader.

Click *Next*.

### Step 4: Select Portraits to Upload

The list of portraits will be displayed in the Portrait Import dialog.

The Portrait Import dialog, Step 4, selecting portraits to upload.

Your portrait photos will be listed according to the columns you specified on the previous screen.

You can edit any mistakes by clicking on the specific portrait, and making changes in the *Last Name*, *First Name*, and *Grade* fields at the bottom of the screen. Click *Update* after making any changes.

Click the *Grade* heading at the top of the column to sort the portraits by grade. Click the *Last Name* heading at the top of the column to sort the portraits by grade.

Next, select the portraits you would like to upload. To select all portraits, click the checkbox at the top of the first column. Click the checkbox again to deselect all of the portraits.

To select individual portraits, click the checkbox next to each portrait that you would like to upload.

To select an entire Grade, hold the Control Key on your keyboard, then click the checkbox next to a portrait for the grade you want to select. All portraits for that grade will be selected.

Click *Next*.

#### *Step 5: Review Upload Folders*

You will be prompted to review and confirm the portrait folders as a final step.

The Portrait Import dialog, Step 5, reviewing the portrait folders.

The folder names to the right represent portrait folders that already exist in the software from any previous portrait upload sessions. The folder names on the left represent new folders that will be created for this upload.

Review the information to confirm that it is correct.

Click **Next**. The upload process will begin.

The Portrait Import dialog, Step 6, uploading the portraits.

You will see a progress bar while the portraits are being uploaded. Once the upload is complete, the Portrait Import dialog will close and you will be returned to the Portraits tab on the Manage Photos page. You should see your new portraits organized in folders in the Portrait Folders section of the Portraits tab.

---

**TIP:** If you have uploaded a large amount of portraits it may take a few minutes for them to display after the Portrait Import dialog has closed. If they still do not display after a few minutes, try refreshing your browser. You may also need to clear your browser cache in order to force it to load a new page.

---

## 6.3.2 Managing Your Portraits

### *Adding a New Folder*

Click the *New Folder* button to add a new folder for organizing your portraits. Enter a name for the folder when prompted, then click *OK*.

The **New Folder** button.

### *Renaming or Deleting a Folder*

Click the *Rename folder* icon next to a folder to rename the folder. Enter a new name for the folder when prompted, then click *OK*.

Click the *Delete folder* icon next to a folder to delete the folder.

The **Rename and Delete** icons.

### **6.3.3 Searching for Portrait Photos**

Click the *Search* button to search for portrait photos containing a specific person. Type the first few letters of the first or last name of the person you are searching for, then select the name from the list that appears, and then click *Search*. Portrait photos are searched based on the *Index* information in your photos.

The **Search** button.

### **6.3.4 Printing your Portraits for Proofreading.**

Click the *Print* button to print your portraits for proofreading. The *Print Portraits* dialog will appear. Select the folders you would like to print, then click *OK*. A PDF will be generated, which you can print to your local printer.

The **Print** button.

### **6.3.5 Changing Portrait Information and Prioritizing Teachers**

To *Preview* a portrait in a larger window, change the *Name*, *Grade* and other info, view *Portrait Info*, and specify *Teacher Portraits* and *Priorities*, click the *Preview/Info* icon, at the top right of any photo thumbnail.

The **Preview/Info** icon shown on a **Candid** thumbnail.

The *Preview/Info* dialog will appear.

The *Preview/Info* dialog for a *Portrait* photo.

Click the *Left and Right* arrows to scroll through all of the *Portraits* in the current folder.

To change the *Caption* for a portrait, type the new name into the *Caption* field.

To change or add the *Last Name*, *First Name*, *Grade*, *Home Room*, *Teacher Name*, *Title*, or *Job Title* for the portrait, type it into the appropriate field.

If your teachers are in the same folder as the student portraits you can make them appear in the first position(s) on the class portrait page, or automatically flow into a larger teacher frame. Check the *Teacher Portraits* checkbox to specify all teachers in the folder. All portraits with the *Teacher Portrait* checkbox checked will flow into the first positions on the portrait page, regardless of alphabetical order.

If you have selected more than one portrait as a teacher, you can adjust the order in which they appear by selecting a number from the *Priority* menu. The *Priority* for each teacher will appear on the thumbnail in the contact sheet.

If you select the same *Priority* for more than one *Teacher Portrait*, the portraits will appear on the portrait page in alphabetical order, within that priority level.

### Portrait Organization Using the Toolbar

You can select a portrait by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the portrait has been selected. Deselect a portrait by clicking it, or the checkbox, again. You can also select multiple portraits at a time.

Use the features on the *toolbar* to organize the portraits in a folder.

The toolbar on the Portraits tab.

Click *Select All* to select all of the portraits in the current folder.

Click *Select Used* to select only the portraits in the current folder that have been used in the book. These portraits display a checkmark icon.

Click *Select Unused* to select only the portraits in the current folder that have not been used in the book.

Click *Deselect* to deselect all portraits in the current folder.

Click *Copy* to copy the currently selected portraits to another folder. The *Copy selected photos* dialog will appear. Select a destination folder for the portraits, then click *OK*.

Click *Move* to move the currently selected portraits to another folder. The *Move selected photos* dialog will appear. Select a destination folder for the portraits, then click *OK*.

Click *Delete* to delete the currently selected portraits.

Click *Edit* to edit a portrait. You can only have one portrait selected to use the editing feature.

Click *Edit Metadata* to correct or add any information from the Index file. This feature allows you to make changes to the portrait data after the portraits have been uploaded.

Click *Export* to export the selected portraits to your local disk for archival purposes. Portraits will be added to a zip file. Click where instructed to download the file.

### Automatic Updates

When you make changes to your portraits, the layout of existing portrait pages will update automatically if needed. Some changes that may cause your existing portrait pages to update automatically include:

- Changing or correcting the first or last name associated with a portrait
- Adding a portrait or portraits to a class folder
- Removing a portrait or portraits from a class folder
- Moving a portrait or portraits from one class to another

Depending on your layouts, and the specific changes you made, your pages could be significantly altered. An alert may appear under the Help menu, on the Photos page, or on the Advanced Design Page, suggesting that you review your portrait pages after any changes have been made.

---

**IMPORTANT!** If you make any changes to your portraits that may affect the layout of existing portrait pages, it is very important that you review the pages in Advanced Design. You can then make sure that everything looks the way you want, and make adjustments as necessary.

---

## 6.4 Using Photo Post to Collect Photos

Photo Post is a feature that allows you to obtain candid photos and portraits, through a secure web page, from your school community of students, parents, teachers and supporters. You will be able to review submitted photos, and select any that you would like for inclusion in the yearbook.

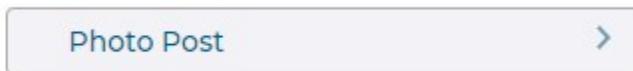

Photos can be submitted via PhotoPost from any supported browser on any supported device, including Windows, Mac, Apple iOS, Chrome OS and Android OS.

---

**Tip:** Photo Post is a great way to obtain additional candid and portrait photos for your yearbook from students, families and other supporters!

---

Photo Post must be enabled in order to be used. If you do not see a Photo Post tab on your Photos page and would like to use it, contact your Administrator or Yearbook provider.

The Photo Post tab on the Photos page.

### 6.4.1 Inviting Someone to Submit Photos

To invite someone to use Photo Post, click on the Photo Post tab, then click *New folder* to add a new folder for your photos. Enter a name for the folder when prompted, then click *OK*.

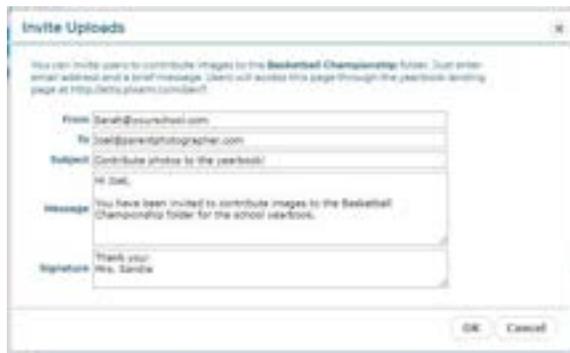

The New Folder button.

Next, click the *Invite* button in the toolbar to invite someone to submit photos to your folder.

The Photo Post Invite button.

The Invite dialog will appear.

The Photo Post Invite dialog.

Type your email address, the email address for the recipient, a subject, message, and signature into the appropriate text fields. Then click the *Invite* button. The email will be sent to the recipient, along with a link to a secure page where they can click *Upload* to upload their photos, along with information about each photo.

**TIP:** Photo Post users will not be able to see other user's photo submissions, or any yearbook photos, or access the yearbook software.

### 6.4.2 Other Ways to Use PhotoPost

You can also e-mail the PhotoPost link directly to users from your e-mail account, from an email marketing application such as Constant Contact, or post it to your school's website. Anyone with the link will be able to upload photos to the site.

To obtain the link for your site, click the *Invite* button, and add your own e-mail in the *To* field. Then click *OK* to send the email. You will receive an email with a link that you can use to direct users to PhotoPost.

### 6.4.3 Choosing Photos for Your Yearbook

Once photos have been submitted using Photo Post, they will appear in their respective folders on the Photo Post tab.

To preview and scroll through your submitted photos in a larger window, click the *Preview/Info* icon, at the top right of the photo thumbnail. The Preview dialog will open.

The Preview dialog on the Photo Post tab.

Click the *Left and Right arrows* to scroll through all of the photos in the current folder.

In order to use submitted photos in the yearbook, you will need to move them to a *Candid* or *Portraits* folder. You can select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Next, use the features on the *toolbar* to move or organize the photos.

The toolbar on the Photo Post page.

Click *Select All* to select all of the photos in the current folder.

Click *Deselect* to deselect all photos in the current folder.

Click *Move* to move the currently selected photos to a folder on the Candid's or Portraits tab. The *Move selected photos* dialog will appear. Select the appropriate folder for the photos, then click *OK*. Your submitted photos have now been moved, and are ready to be used in your yearbook!

After you've moved the photos that you'd like to use in your yearbook, it's recommended that you delete any submitted photos that you do not plan to use. Click *Delete* to delete the currently selected photos.

Click the *Delete folder* icon to delete the folder.

## 6.5 Importing Photos from Google Drive

You can import photos directly from Google Drive for your yearbook.

The Google Drive tab on the Photos page.

To get started. Click the Google Drive tab. A Google dialog will appear asking you to Sign In to your Google Account. Select the account you would like to use. You will now be logged into Google Drive.

Your Google Drive folders will appear on the Google Drive tab. Select a folder to view its contents. Note that only RGB JPG files will be uploaded to the software.

---

**Tip:** If your Google Drive photos do not appear, try refreshing your browser.

---

Nobody will be able to see your photos on the Google Photos, tab unless they are logged into your account.

In order to use the Google Drive photos in the yearbook, you will need to copy them to a Candid's folder. Select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Next, use the Copy feature on the *toolbar* to copy the photos to a Candid's folder.

The toolbar on the Google Drive page.

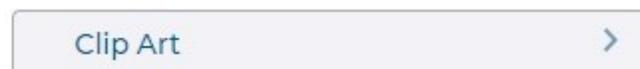

Click *Select All* to select all of the photos in the current folder.

Click *Deselect* to deselect all photos in the current folder.

Click *Copy* to copy the currently selected photos to a folder on the Candid's tab. The *Copy selected photos* dialog will appear. Select the appropriate folder for the photos, then click *OK*. Your Google Drive photos have now been copied, and are ready to be used in your yearbook!

## 6.6 Working with Clip Art on the Clip Art Tab

The software contains a standard set of *clip art* for use in designing your pages. In addition, you can add your own clip art. To use this feature, click on the *Clip Art* tab.

The Clip Art tab on the Photos page.

---

**TIP:** If you would like to create and add your own clip art, it should be saved as a .PNG file, with enough resolution to provide good print quality. We recommend an approximate size of 1200 x 1200 pixels, which will allow you to scale the clip art up to 4 inches square while maintaining good print quality. For irregularly shaped clip art, the background should be transparent.

---

### 6.6.1 Adding a New Folder

When you are ready to upload your own clip art, click the *New folder* to add a new folder for organizing your clip art in the software. Enter a name for the folder when prompted, and then click *OK*.

### 6.6.2 Renaming or Deleting a Folder

Click the *Rename folder* icon next to a folder to rename the folder. Enter a new name for the folder when prompted, then click *OK*.

Click the *Delete folder* icon next to a folder to delete the folder.

### 6.6.3 Uploading Your Own Clip Art

To upload your clip art from your PC, select the folder you want to upload your clip art into, then click the *Upload* button at the top of the tab.

Click **Upload** to upload Clip Art files from your PC.

Next click *Add Files*, and locate the Clip Art files that you want to upload. Select the specific Clip Art files you want to upload, then click *Open* to start the upload process.

Progress indicators will provide status during the upload process, and you will be notified when it is complete.

To *Preview* Clip Art in a larger window and change the *Caption*, click the *Preview/Info* icon, at the top right of any photo thumbnail. The *Preview/Info* dialog will appear.

The *Preview/Info* dialog for Clip Art.

To change the name of the Clip Art, type the new name into the *Caption* field.

Click the *Left and Right arrows* to scroll through all of the Clip Art in the current folder.

### 6.6.4 Clip Art Organization Using the Toolbar

You can use the additional features to manage your own custom Clip Art, but you cannot make modifications to the standard set of Clip Art. If you try to make any changes that are not allowed you will see an alert message.

You can select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Use the features on the *toolbar* to organize the Clip Art in a folder.

The toolbar on the Clip Art tab.

Click *Select All* to select all of the Clip Art in the current folder.

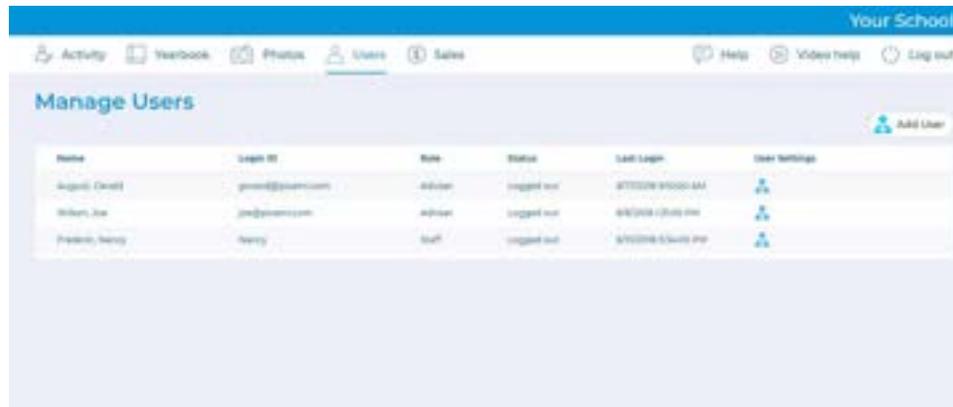

Click *Deselect* to deselect all Clip Art in the current folder.

Click *Copy* to copy the currently selected photos to another folder. The *Copy selected photos* dialog will appear. Select a destination folder for the Clip Art, then click *OK*.

Click *Delete* to delete the currently selected Clip Art.

## 7 The Users Page

In order to login and work on the yearbook, a user must first be added to the site. On the Users page you can add new users, and assign them roles based on their individual responsibilities.

This page is accessible only by users with *Adviser* privileges. If you don't see this page, you have not been provided access.

### 7.1 Understanding User Roles

Each user of the software will be assigned a *Role*, which will determine how much access the user has to the software, and to the yearbook. User Roles will be assigned when a User is created, and can be changed at any time.

Below is a description of each User Role.

**Viewer:** Users with the *Viewer* role can only view the yearbook using the Preview feature. They will have no ability to edit or otherwise modify the book. This role should be applied to anyone who would like to view progress of the book, but is not an active participant.

**Photographer:** Users with the *Photographer* role can upload and manage all photos and clip art on the Photos page. This role should be applied to those responsible for taking and/or organizing photos for the sections of the yearbook.

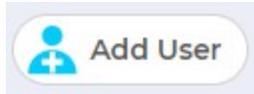

**Staff:** Users with the *Staff* role can perform all of the above, plus edit the yearbook for the sections which they were assigned, on the Yearbook page. This role should be applied to those responsible for creating and designing individual sections of the yearbook, such as designers and copywriters.

**Editor:** Users with the *Editor* role can perform all of the above, plus create sections, organize the yearbook, and edit any section on the Yearbook page. This role should be applied to those responsible for organizing the yearbook.

**Adviser:** The *Adviser* role provides full access to the software. Users with this role can perform all of the above, plus modify user accounts and access levels on the Users page, and review then approve or reject sections, and submit the final yearbook for printing on the Yearbook page. An administrator or teacher would typically be assigned to this role.

### 7.2 Adding Users

To add a new user, and assign them a Role, click the *Add User button*.

The Add User button on the Users page.

The *Add User* dialog will appear.

 A dialog box titled "Add User" with a close button in the top right corner. It contains the following fields and options:
 

- Login ID: Text box containing "JohnM"
- First Name: Text box containing "John"
- Last Name: Text box containing "Mellor"
- Password: Text box containing "\*\*\*\*\*"
- Password (confirm): Text box containing "\*\*\*\*\*"
- User Role: Dropdown menu showing "Staff"
- Role Descriptions:
  - Viewer: view only, no editing
  - Photographer: upload and manage photos, view, no editing
  - Staff: edit assigned sections
  - Editor: edit all sections, manage the book, manage users
  - Adviser: all of the above, plus approve and submit final book
- Assign Sections:
  - Hardcover
  - PerfectBound
  - Introduction
  - Around School
  - Grade 8
  - Grade 9
  - Index
- Buttons: "OK" and "Cancel" at the bottom right.

Enter a Login ID for the user. Next, enter the users First Name, Last Name, and a password. This can be an e-mail address, but it does not need to be.

---

**Tip:** The Login ID can be an e-mail address, but it does not need to be. If an e-mail address is used, the user may receive communication from the software regarding major activities and status changes in the book. This is particularly helpful for Advisers.

---

Select a *Role* for the user from the *User Role* menu.

If the *Staff* Role is selected, check the box next to a section to assign it to the user. This will allow the user to check the section out for editing. Multiple users can be assigned to the same section. You can also add or change user assignments any time.

Click *OK* when finished. The user has now been added, and can log in any time.

## 7.3 Updating Users with User Settings

Click the User Settings icon next to a user to change the user's Role, update their Name and Password, view their activity on the site, or Delete them.

The User Settings icon on the Users page.

The Update User dialog will appear.

**Update User**

First Name: John  
 Last Name: Mellor  
 Password:   
 Password (confirm):   
 Login ID: JohnM  
 Last Login: 8/17/2018 3:43:00 PM  
 Number of Logins: 75  
 Saved Sections: -  
 User Role: Staff

Viewers: view only, no editing  
 Photographer: upload and manage photos, view, no editing  
 Staff: edit assigned sections  
 Editor: edit all sections, manage the book, manage users  
 Adviser: all of the above, plus approve and submit final book.

Assign Sections

Hardcover  Perfect Bound  
 Introduction  Around School  
 Grade 8  Grade 9  
 Index

Section	When	Event
Grade 9	8/17/2018 9:12:00 AM	Checked out
Introduction	8/16/2018 12:21:00 PM	Completed
Grade 8	8/16/2018 10:44:00 AM	Checked in (Cancelled)
Grade 8	8/16/2018 10:37:00 AM	Checked out

OK Cancel

The User Settings dialog.

To change the user's *First Name*, *Last Name*, or *Password*, type the new information into the appropriate field.

To change the user's *Role*, select a new *Role* for the user from the *User Role* menu.

If the *Staff* Role is selected, you can change the sections that are assigned to user by check or unchecking the box next to any section.

You can view a summary of the user's activity under *Last Login*, *Number of Logins*, and *Saved Sections*. In addition, the *Activity Log* at the bottom of the dialog provides a complete history of the user's Activity.

## 8 The Sales Page

The *Sales* page provides a real-time sales report for any items that are being sold in the *E-Commerce Storefront* for your school. This includes Yearbooks, Ads, Personalized Yearbook pages and Supplements, and any other fundraising products. Please talk to your yearbook provider regarding the availability of products for sale in the Storefront.

The Sales Page is only accessible by users with *Adviser* privileges. If you don't see this page, you have not been provided access.

The screenshot shows the 'Sales' page with a navigation bar at the top containing icons for Activity, Yearbook, Photos, Users, Sales (highlighted), and Configure. Below the navigation bar, the page title 'Sales' is displayed, followed by 'Summary' and 'Details' tabs. A message states: 'The storefront is inactive. Yearbooks were being sold in the store, but the sales ended on 09/01/2021. Ads were being sold in the store, but the sales ended on 09/01/2021.' Below this message is a table with the following data:

Product	Price	Personalization	Quantity	Sales
1/8 Page Ad	25.00	-	0	0.00
1/4 Page Ad	50.00	-	0	0.00
1/2 Page Ad	75.00	-	4	300.00
Full Page Ad	100.00	-	2	200.00
Soft Cover Yearbook	40.00	5.00	14	554.99
Hard Cover Yearbook	60.00	5.00	27	1044.00
Digital Yearbook	4.00	-	2	8.00
Total			49	2106.99

Below the table, a message reads: 'Please contact your yearbook provider with any questions or changes.'

The Sales Page provides detailed reporting for online and offline sales.

### 8.1 Viewing a Summary Sales Report

When you access the Sales page you will see the current status of the Storefront at the top of the page. Click the *storefront* link to view your active store in a new browser tab.

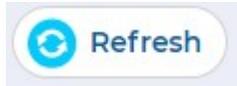

Below the status, if your storefront is enabled you will see a summary report of recent sales, organized by product, with product, pricing and quantity information, and total sales to date.

Contact your yearbook provider to make any changes such as enabling or disabling your storefront, and changing products or pricing information.

### 8.2 Viewing a Detailed Sales Report

Click on *Details* to view a detailed Sales Report.

Choose a *Start Date* and *End Date*, and then click the *Refresh* button, to view a basic sales report for a specific time period. Items in the report are organized by product category. Click on the green *Plus* icon to see more detail for each product.

The Refresh button on the Sales tab.

### 8.3 Viewing a Detailed Sales Report

Click the *Order Report* button to view a complete, Detailed Sales Report for yearbooks and other products.

The Order Report button on the Sales tab.

The *Order Detail* dialog will open, displaying the report.

The screenshot shows a dialog box titled "Order Detail" with a close button (X) in the top right corner. It has two tabs: "Yearbooks" (selected) and "Products". Below the tabs is a "Text View" section with a search bar and three buttons: "Print", "PDF", and "Excel". A table displays the following data:

ID #	Date	Type	Name	E-mail	Product	Personalized	Quantity	Detail	Shipping	Handle
20	10/15/2018	No Charge	Wood, Gary	gwood@oxrem.com	Soft Cover Yearbook (Not Personalized)		1			4000
21	10/16/2018	No Charge	Wood, Gary	gwood@oxrem.com	Soft Cover Yearbook (Not Personalized)		1			4000
28	03/03/2017	Offline	Hodgens, Tom		Soft Cover Yearbook (Personalized)	X	1			19.99
31	05/14/2017	Offline	Wood, Gary		Hard Cover Yearbook (Not Personalized)		1			2100
32	05/14/2017	Offline	Wood, Gary		Hard Cover Yearbook (Not Personalized)		1			2100
					Hard Cover					

An "OK" button is located at the bottom right of the dialog.

The Order Detail dialog showing Yearbook orders.

Click *Text View* to view a version that you can copy and paste into a spreadsheet.

Click the *Yearbooks* tab to view yearbook sales.

Click the *Products* tab to view sales of all non-yearbook products.

Click *Column Visibility* to adjust the information available in the report. Select the items that you want to appear.

Click *Print* to print the report to a local printer.

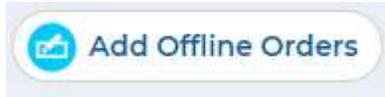

Click *PDF* to generate a PDF of the report.

Click *Excel* to generate an Excel spreadsheet of the report.

### 8.3.1 Entering Offline Orders

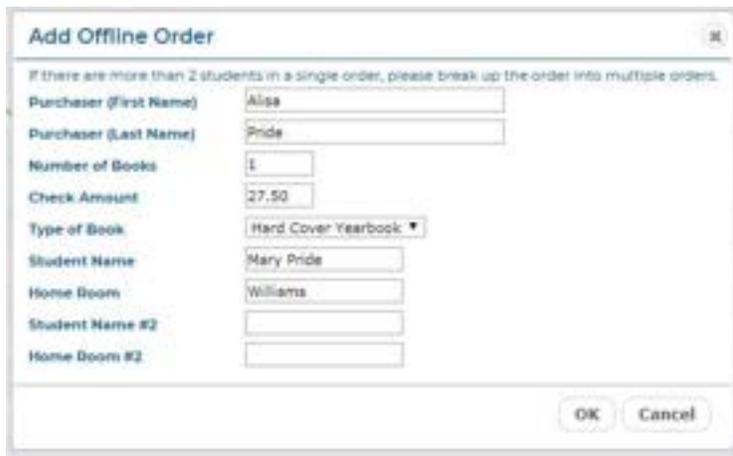

You can also enter non-E-Commerce (paper check or credit card) yearbook orders into the system, allowing you to generate a single report for both online and offline orders.

Click the *Add Offline Orders* button.

The Add Offline Orders button on the Sales page.

The Add Offline Order dialog will appear.

A dialog box titled "Add Offline Order" with a close button in the top right corner. Below the title is a note: "If there are more than 2 students in a single order, please break up the order into multiple orders." The form contains several fields: "Purchaser (First Name)" with the value "Alisa", "Purchaser (Last Name)" with "Pride", "Number of Books" with "1", "Check Amount" with "27.50", "Type of Book" with a dropdown menu showing "Hard Cover Yearbook", "Student Name" with "Mary Pride", "Home Room" with "Williams", "Student Name #2" (empty), and "Home Room #2" (empty). At the bottom right are "OK" and "Cancel" buttons.

The Add Offline Order dialog on the Sales page.

Enter the appropriate information in the text fields, and then click *OK* to enter the order in the system. Offline orders will appear in Detailed Sales Report.

## 9 The Configure Page

The *Configure* page allows an adviser to control which content is available on the site, and to view and reset page numbers.

The Configure page is only accessible by users with *Adviser* privileges. If you don't see this page, you have not been provided access.

### 9.1 Managing Content on the Configure Page

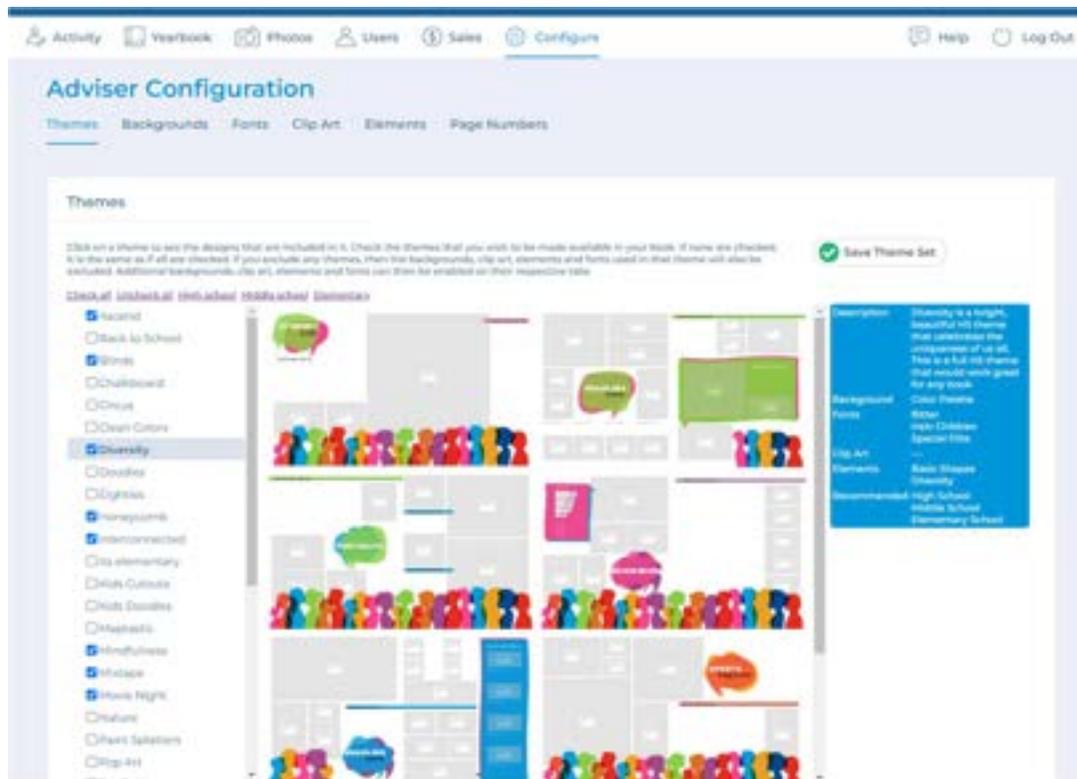

You can use the controls on the Configure page to enable and disable Themes, Backgrounds, Fonts, and Clip Art. This feature is available only to users with Adviser privileges.

Select the type of content you would like to manage, then click on a category to see previews of its contents. Click the checkbox next to the content that you would like to be available on the site. Then click Save. Only the selected content will be available to users of the site.

If no content is checked, then all content will be shown.

*Themes* are organized in categories for *Elementary School*, *Middle School* and *High School*. Check the box the the themes you would like to display, and click Save.

*Theme Info* is displayed to the right of the theme preview and contains detailed information about the contents of the theme.

Selecting Themes on the Configure page.

**IMPORTANT!** Please refer to the *Content Reference Guide* to view the complete selection of available content.

## 9.2 Managing Page Numbers on the Configure Page

Click *Page Numbers* to view the current page number status and position.

Click *Reset* to reset all page numbers to the current settings.

Below are the settings available for adjusting page numbers. Contact your yearbook provider to change any of these variables in your book.

*Placement*: Top or bottom; inside, centered, or outside

*Page number margin*, which is the distance from the edge of the page (in inches): 0.25, 0.3125, 0.375, 0.5, 0.625, 0.75

*Font*: Arial, Comic Sans, Times New Roman, Trebuchet, or Verdana

Font size (points): 9, 10, 11, 12

Page number style: #, -#-, or #/#

*Outline*: Yes or No

## 10 Submitting Your Yearbook for Print

---

You will submit your final yearbook on the *Yearbook* page. The features for proofing and final acceptance of your yearbook are only available for users with *Adviser* privileges. If you don't see these features, you do not have *Adviser* privileges.

---

**IMPORTANT!** The specific steps required to submit and approve your book will vary based on the configuration of the software, and the specific requirements of your yearbook provider. . It is recommended that you complete this final step in conjunction with, or under the direction of, your yearbook provider or site administrator. If you have any questions about this process or the available options, please contact your yearbook provider or administrator before proceeding.

---

### 10.1 The Basic Proofing and Acceptance Process

You will typically be required to review a proof before submitting your final book for print. Your proof may be an External Proof, Press Proof (printed proof), or Digital Proof (online PDF proof), depending on the specific requirements of your yearbook provider.

This section provides an overview of the basic proofing and acceptance process. Please see the following section, [Proofing Options](#), for more specific detail regarding each proofing option.

#### 10.1.1 The Submit Button

The Submit button appears at the top of the Yearbook Ladder page.

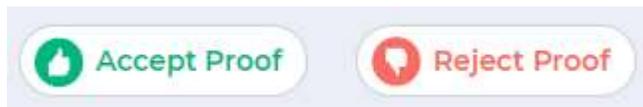

Once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Reviewed*, click *Submit* to begin the proofing, approval and printing process.

Click the Submit button to start the Proofing process.

#### 10.1.2 The Approve and Reject Buttons

Once you've submitted your book for a proof, all features in the software will be locked to prevent further editing of the book. You will see *Accept Proof* and *Reject Proof* buttons at the top of the page.

Click Accept or Reject once you've received your proof.

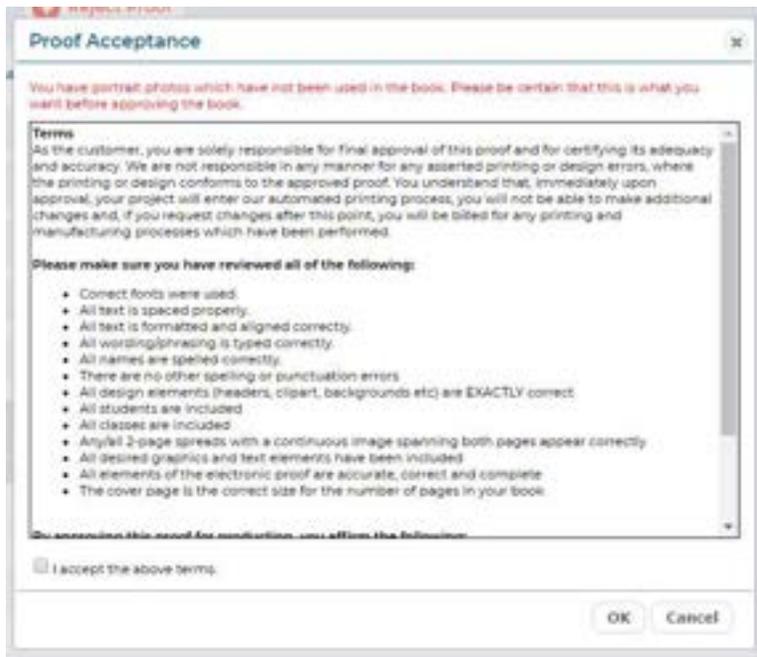

After reviewing your proof, click *Reject Proof* if you need to make any corrections. The software will be unlocked, and you can click the *Reject* icon on the Yearbook Ladder to unlock any section, then click the *Edit* icon to make additional changes.

Once you've made the necessary corrections, click the *Mark Complete* icon, and then the *Approve* icon, to once again approve the section. Once all sections are approved, you can click *Submit Proof* to request another proof for review.

When you are satisfied that the proof is exactly as you'd like, click *Accept Proof* to accept your final proof of the book and proceed with the printing process.

### 10.1.3 Final Acceptance

Upon clicking Accept Proof, you will be asked to review the *Proof Acceptance* dialog, and accept the terms.

The Proof Acceptance dialog.

Please review all of the terms carefully, then check the checkbox when you are ready to accept the terms and submit your final book.

---

**IMPORTANT!** You will see a red error message if you have any potential problems with your book, such as portraits that have not been included. Please review any error messages carefully, and make the necessary corrections before proceeding.

---

Once you've accepted the proof, a final PDF will be delivered to your yearbook provider, and the book will be locked to prevent further editing.

---

**TIP:** The software will automatically generate a high-resolution PDF file and deliver it to the production location that has already been configured by your yearbook provider. An email notification will be sent at the time the order is submitted, and another email will be sent once the PDF has been transmitted. Note that it may take up to 2-3 hours to render and then transmit the PDF file to your yearbook provider.

---

Quantities for both the proof and final print should have also already been configured by your yearbook provider, in the Administration Pages.

## 10.2 Proofing Options

There are three options for proofing and approval of your yearbook that can be configured in the Administration pages by your yearbook provider: External Proofing, Press Proof, and Digital Proof. Each of these options is described in more detail below.

Please contact your yearbook provider or administrator if you have any questions about which process you will be using.

### 10.2.1 Option 1: External Proofing

The *External Proofing* option allows submission of proofs and assumes that the proof review and final approval will be accomplished using a process external to the software.

If the software has been configured for *External Proofing*, once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Complete*, a *Submit* button will appear at the top of the Yearbook page.

Click *Submit* to begin the proofing, approval and printing process.

Click the *Submit* button to start the *Proofing* process.

The software will deliver a PDF to your yearbook provider, and the software will be locked to prevent further editing.

If needed, your yearbook provider can log into the Administration pages, and *Reject* the proof to unlock the software for further changes, or *Accept* the proof as the final approved yearbook.

Please communicate directly with your yearbook provider regarding the receipt of the proof, and the details of the proofing and final acceptance process.

### 10.2.2 Option 2: Press Proofing

The *Press Proof* option provides the ability for the software to track and manage printed proofs and their acceptance or rejection. This option should be used when your yearbook provider will be delivering you a printed press proof for review and approval.

If the software has been configured for *Press Proof*, once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Complete*, a *Submit* button will appear at the top of the Yearbook page.

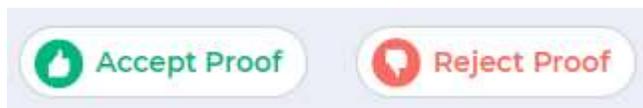

Click *Submit* to begin the proofing, approval and printing process.

Click the *Submit* button to start the *Proofing* process.

The software will deliver a PDF to your yearbook provider, who will then provide a printed proof of the yearbook. Please communicate with your yearbook provider regarding the details of the press proof delivery.

Once you've submitted your book for a proof, all features in the software will be locked to prevent further editing of the book. You will see *Accept Proof* and *Reject Proof* buttons at the top of the page.

Click *Accept* or *Reject* once you've received your proof.

After reviewing your proof, click *Reject Proof* if you need to make any corrections. The software will be unlocked, and you can click the *Reject* icon on the Yearbook Ladder to unlock any section, then click the *Edit* icon to make additional changes.

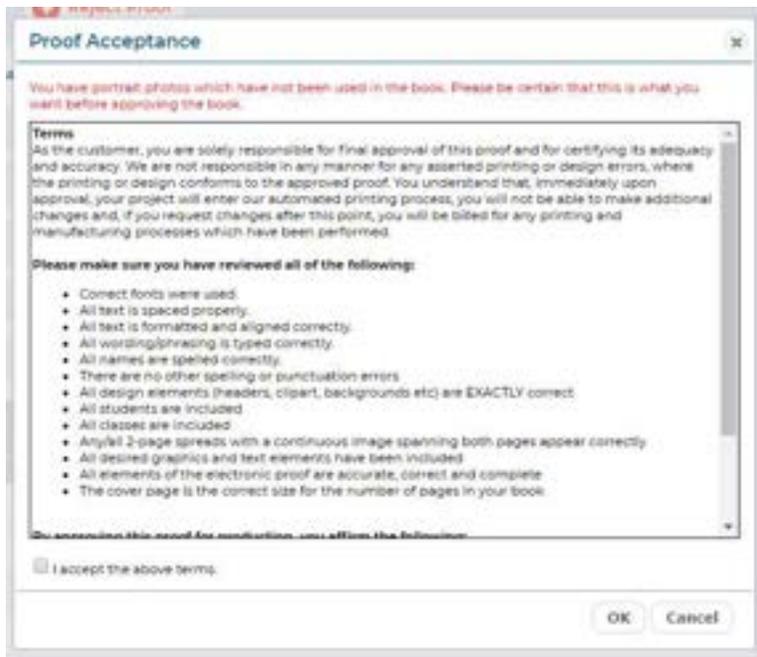

Once you've made the necessary corrections, click the *Mark Complete* icon, and then the *Approve* icon, to once again approve the section. Once all sections are approved, you can click *Submit Proof* to request another proof for review.

When you are satisfied that the proof is exactly as you'd like, click *Accept Proof* to accept your final proof of the book and proceed with the printing process.

You may also see an *Accept and Print* button. Click *Accept and Print* if you would like to submit your book and proceed with the printing process, without requesting an additional proof.

### *Accepting Your Press Proof as Final*

When you are satisfied that the proof is exactly as you'd like, click *Accept Proof* or *Accept and Print* to proceed with the printing process. The *Proof Acceptance* dialog will appear.

The Proof Acceptance dialog.

Please review all of the terms carefully, then check the checkbox when you are ready to accept the terms and submit your final book.

---

**IMPORTANT!** You will see a red error message if you have any potential problems with your book, such as portraits that have not been included. Please review any error messages carefully, and make the necessary corrections before proceeding.

---

Once you've accepted the proof, a final PDF will be delivered to your yearbook provider, and the book will be locked to prevent further editing.

---

**TIP:** The software will automatically generate a high-resolution PDF file and deliver it to the production location that has already been configured by your yearbook provider. An email notification will be sent at the time the order is submitted, and another email will be sent

once the PDF has been transmitted. Note that it may take up to 2-3 hours to render and then transmit the PDF file to your yearbook provider.

---

### 10.2.3 Option 3: Digital Proofing

The *Digital Proof* option provides an online PDF proof, and allows for online approval of the proof and final order.

If the software has been configured for *Digital Proof*, once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Complete*, a *Submit* button will appear at the top of the Yearbook page.

Click *Submit* to begin the proofing, approval and printing process.

Click the *Submit* button to start the Proofing process.

The *Proof Acceptance* dialog will appear, and the software will require review and approval of an online PDF proof of the entire book. Click *Next* to generate the PDF.

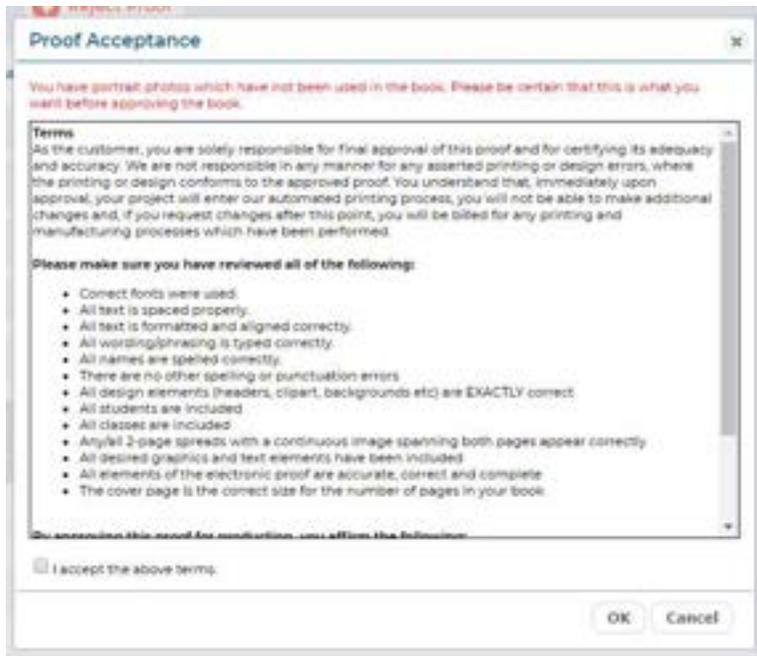

Step 1 of the Digital Proof approval process.

The software will generate an online PDF. A progress bar will display during this process.

Once the PDF is available, click the link to display it on your screen. The Online PDF is intended for proofing only, and is not the final production PDF. It is thus lower resolution, and contains a PROOF watermark.

Once you have reviewed the entire PDF, click *Next* to proceed to the final step. The *Proof Acceptance* dialog will appear.

The Proof Acceptance dialog.

Please review all of the terms carefully, then check the checkbox when you are ready to accept the terms and submit your final book.

---

**IMPORTANT!** You will see a red error message if you have any potential problems with your book, such as portraits that have not been included. Please review any error messages carefully, and make the necessary corrections before proceeding.

---

If the PDF is not acceptable, has errors, omissions, or other issues, click *Cancel*. The software will be unlocked, and you can click the *Reject* icon on the Yearbook Ladder to unlock any section, then click the *Edit* icon to make additional changes.

Once you've made the necessary corrections, click the *Mark Complete* icon, and then the *Approve* icon, to once again approve the section. Once all sections are approved, you can click *Submit Proof* to request another Digital Proof for review.

Once you've accepted the proof, a final PDF will be delivered to your yearbook provider, and the book will be locked to prevent further editing.

### 10.3 Proofing Status and Messaging

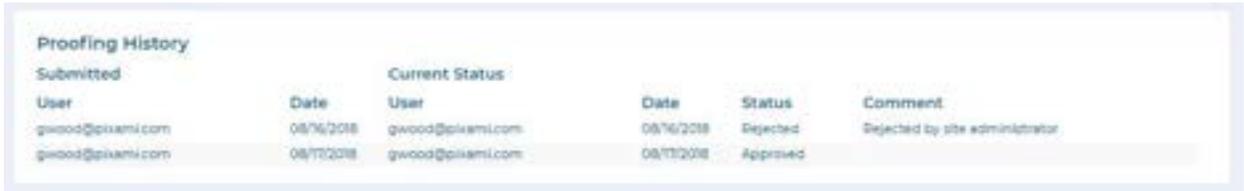

There are two important features that will assist you with information during the proofing process.

The *Status* box at the top of the *Activity* page will display information about the current proofing status of the book, and the next steps.

The Status box displaying proofing progress.

In addition, the *Proofing History* box at the bottom of the *Yearbook* page will display a complete history of the proofing process.

Proofing History					
Submitted		Current Status			
User	Date	User	Date	Status	Comment
gwood@pixami.com	08/16/2018	gwood@pixami.com	08/16/2018	Rejected	Rejected by site administrator
gwood@pixami.com	08/17/2018	gwood@pixami.com	08/17/2018	Approved	

The Proofing History box.

# 11 Customer Support

---

Thank you for using Pixami's Yearbook Pro online yearbook software! We hope it has made the process of creating your yearbook fun and easy, and has resulted in a product that everyone in your school will cherish for years to come!

---

**Important!** If you have any questions that aren't addressed in this User Guide, please contact your yearbook provider or administrator.

---

## 11.1 Pixami Knowledge Base

Pixami's public Knowledge Base is located at <http://support.pixami.com>. Here you can find links to all documentation, tutorial videos, and Questions and Answers for all of the most common support topics.

## 11.2 Troubleshooting

Since the software is 100% web-based, any issues that you experience could likely be caused by a slow or intermittent Internet connection. If you experience any issues please try the following before contacting support:

- Reset your modem or restart your Internet connection
- Restart your browser
- Clear your browser cache

### 11.2.1 Clearing Your Browser Cache

The browser cache is a temporary storage location on your computer for files downloaded by your browser to display websites. Your browser will display these 'cached' pages in order to make the page load faster. Sometimes the software requires a new updated page to be displayed, but the browser will continue to display the cached page. This is a common support issue, which can be very easily resolved by clearing your browser cache.

*How to Clear Your Cache in Windows Internet Explorer*

- Open Internet Explorer and then click on the "Tools" menu bar.
- Choose "Internet Options".
- Click the "General" tab, and then, under "Browsing History", click "Delete".
- From the Delete Browsing History window, select the checkbox next to **Temporary Internet files and website files**. This will clear copies of webpages, images, and media that are saved for faster viewing. Note that you do not have to delete Cookies or History.
- Click "Delete" to complete the process.
- Restart your browser and then try again.

*How to Clear Your Cache in Google Chrome*

- In the top-right corner of Chrome, click the Chrome menu .
- Select "More tools" > "Clear browsing data".
- In the dialog that appears, select the checkbox next to **Cached images and files**. Note that you do not have to delete Cookies or History.

- Use the menu at the top to select the amount of data that you want to delete. Select “the beginning of time” to delete everything.
- Click “Clear browsing data”.
- Restart your browser and then try again.

#### *How to Clear Your Cache in Mozilla Firefox*

- Click the menu button and choose “Preferences”.
- Select the “Advanced” panel.
- Click on the “Network” tab.
- In the **Cached Web Content** section, click “Clear Now”.
- Close the “about:preferences” page. Any changes you’ve made will automatically be saved.
- Restart your browser and then try again.

#### *How to Clear Your Cache in Microsoft Edge*

- Click the three dots on the top right corner of the browser.
- Select “Settings” from the pull-down menu.
- Select “What to clear”.
- Select **Cached data and files**. Note that you do not have to delete Cookies or History.
- Click “Clear”.
- Restart your browser and then try again.

#### *How to Clear Your Cache in Apple Safari*

- In the Safari menu bar, click the “Safari” option.
- Select the “Preferences” link.
- In the Preferences window, click the “Advanced” tab.
- At the bottom of the window, select the “Show Develop menu in menu bar” checkbox.
- Return to the Safari menu bar and click the “Develop” option.
- Select the **Empty Caches** link.
- Restart your browser and then try again.

### **11.2.2 Diagnostics**

If you scroll down on the Activity page, you will see the text *Click here to display diagnostics for technical support*. Clicking this link will bring you to a page with basic system performance diagnostics. This information will aid technical support in troubleshooting any problems that you may have, and you may be asked to display and communicate the contents of this page by support staff.

# NOTES

---
